This product is available in Single or Multi User versions.

Single-user versions are for single student or teacher use at any particular time, just as a single text book would be used. If you intend to use the notes with multiple students the single user version should be upgraded to the multi-user version.

Multi-user versions allow the school or institution to print as many copies as required, or to place the PDF files on the school network, intranet and staff laptops. A certificate of authentication is provided with multi-user versions. Bookmarks provide links to all headings and sub-headings, and individual chapters are provided.

## Contents

### Chapter 1: Getting Started With PowerPoint

Starting a Presentation .....	1-1
The PowerPoint Screen Sections .....	1-2
The Backstage View .....	1-2
The Quick Access Toolbar .....	1-3
The Ribbon.....	1-4
Zoom Controls.....	1-6
Creating the Title Slide.....	1-6
Entering the Company Name .....	1-6
Formatting Text Using the Mini-Toolbar .....	1-7
Formatting Text Using the Ribbon .....	1-8
Moving the Placeholder.....	1-10
Entering the Sub-Title Text.....	1-10
Saving the Presentation.....	1-12
Looking at the Background Themes.....	1-13
Applying a Background Style.....	1-14
Creating a Second Slide .....	1-15
Inserting the New Slide .....	1-15
Entering the Title .....	1-16
Entering the Points .....	1-16
Previewing the Presentation .....	1-18
Looking at the Slides.....	1-18
Starting the Slide Show.....	1-19
Slide Outlines .....	1-20
Other View Buttons.....	1-21
<b>Presentations Assignment 1 .....</b>	<b>1-22</b>

## Chapter 2: Using Graphics in Slides

Loading the Presentation .....	2-1
Creating the New Slide .....	2-1
Selecting the Slide Layout.....	2-2
Entering the Slide Title.....	2-2
Inserting an Image .....	2-3
Adjusting the Image.....	2-4
Adding Text to the Slide .....	2-5
Previewing the Presentation .....	2-7
Adding Another Image to the Presentation .....	2-7
Adding Lines to the Slide.....	2-9
Drawing the Line .....	2-9
Line Styles .....	2-9
Line Colours.....	2-10
Three-Dimensional Effects .....	2-10
Adding Photos to Slides.....	2-12
Selecting the Slide Layout.....	2-12
Entering the Title .....	2-13
Adding the Text.....	2-14
Adding a Photo .....	2-15
Inserting Another Photo .....	2-16
Editing Text .....	2-17
<b>Presentations Assignment 2.....</b>	<b>2-18</b>

## Chapter 3: Using Transitions

Loading the Presentation .....	3-1
Applying a Transition to One Slide.....	3-1
Effect Options .....	3-2
Transition Timings .....	3-3
Slide Sorter View .....	3-4
Altering the Order of Slides .....	3-5
Applying Transitions to Multiple Slides .....	3-6
Removing Transitions.....	3-8
<b>Presentations Assignment 3.....</b>	<b>3-8</b>

## Chapter 4: Animation Effects

Loading the Presentation .....	4-1
Adding Animation Effects .....	4-1
Effect Options .....	4-3
Adding Animation Effects .....	4-4
Copying Animations.....	4-5
Animation Triggers.....	4-7
Changing the Order of Animations.....	4-9
Deleting Animations .....	4-11
Animating Text .....	4-12
Simple Text Animation.....	4-12
More Detailed Text Animations.....	4-14
Animating Just One Text Point .....	4-15
Animating Words and Letters .....	4-18
Changing Animation Effects.....	4-19
Start After or With Previous .....	4-21
More Animation Effects.....	4-22
Looping Animations .....	4-23
Exercise 4-1 .....	4-24
<b>Presentations Assignment 4.....</b>	<b>4-25</b>

## Chapter 5: Adding Movie Clips to Slides

Loading the Presentation .....	5-1
Creating a New Slide .....	5-1
Selecting the Layout.....	5-1
Entering the Slide Title.....	5-2
Adding the Text.....	5-3
Inserting the Movie Clip.....	5-4
Adding a Movie Clip Message.....	5-6
Formatting the Movie Clip .....	5-8
Video Format.....	5-8
Video Playback .....	5-11
<b>Presentations Assignment 5.....</b>	<b>5-14</b>

## Chapter 6: Adding Diagrams to Slides

Loading the Presentation .....	6-1
Creating a New Slide .....	6-1
Selecting the Layout.....	6-1
Adding the Title.....	6-2
Inserting the Diagram.....	6-2
Entering the Chart Labels.....	6-3
Deleting Chart Boxes .....	6-4
Adding More Chart Boxes .....	6-4
Formatting the Diagram .....	6-6
The Diagram Style .....	6-6
Changing the Diagram's Colours .....	6-7
Adding Effects to the Diagram .....	6-8
Formatting the Diagram's Text.....	6-9
Changing the Diagram's Layout.....	6-10
<b>Presentations Assignment 6.....</b>	<b>6-11</b>

## Chapter 7: Formatting and Aligning Slide Content

Loading the Presentation .....	7-1
Creating a New Slide .....	7-1
Selecting the Layout.....	7-1
Entering the Slide Title.....	7-2
The First Photograph.....	7-2
Inserting the Photograph.....	7-2
Adjusting the Shape Height .....	7-3
Formatting the Photograph .....	7-3
The Second Photograph .....	7-4
Inserting the Photograph .....	7-4
The Format Painter Tool .....	7-5
Aligning the Photographs.....	7-5
The Third Photograph.....	7-6
Inserting the Photograph.....	7-6
Formatting the Photograph .....	7-7
Aligning the Photographs.....	7-8

The Fourth Photograph.....	7-8
Inserting the Photograph.....	7-8
Formatting the Photograph .....	7-9
Aligning the Photographs.....	7-10
Adjusting the Appearance of Photographs .....	7-12
Other Image Styles.....	7-14
<b>Presentations Assignment 7.....</b>	<b>7-17</b>

## Chapter 8: Inserting Tables in Slides

Loading the Presentation .....	8-1
Selecting the Layout.....	8-1
Entering the Slide Title.....	8-2
Adding the Table.....	8-2
Entering the Table Items .....	8-3
The Table Styles .....	8-3
Formatting the Text .....	8-4
Column Widths.....	8-5
Deleting Rows.....	8-7
Adding Cells to the Table .....	8-8
Borders and Shading.....	8-9
Changing the Cell Shading .....	8-9
Changing the Border Colour .....	8-10
<b>Presentations Assignment 8.....</b>	<b>8-12</b>

## Chapter 9: Inserting Charts into Slides

Loading the Presentation .....	9-1
Selecting the Slide Layout.....	9-1
Entering the Slide Title.....	9-2
Inserting the Chart.....	9-2
Entering the Chart Data .....	9-4
Editing the Chart.....	9-5
Chart Layouts.....	9-7
Chart Styles.....	9-9
Resizing the Chart .....	9-9
Chart Elements .....	9-10
Controlling the Legend .....	9-10
Chart Titles .....	9-11
Changing the Appearance of the Chart.....	9-12
Changing the Colour of the Columns .....	9-12
Changing the Wall Colour .....	9-13
The Format Task Pane.....	9-15
Changing the Scale of the Y-Axes .....	9-15
Formatting the Chart Area .....	9-17
Filtering the Chart .....	9-18
Other Chart Types.....	9-20
<b>Presentations Assignment 9.....</b>	<b>9-21</b>

## Chapter 10: Action Buttons

Loading the Presentation .....	10-1
Navigation Buttons.....	10-1
The Previous Slide Button .....	10-1
The Next Slide Button .....	10-3
Buttons That Open Specific Slides.....	10-4
The Jungle Safaris Button .....	10-4
The Wild River Rides Button.....	10-7
The Other Slides.....	10-9
Text Buttons.....	10-10
Buttons That Play Sounds.....	10-11

Buttons That Open Other Presentations .....	10-13

## Chapter 14: Slide Masters

Loading the Presentation .....	14-1
Opening the Slide Master View .....	14-1
Looking at the Slide Masters .....	14-2
Setting the Background of the Slides.....	14-4
Altering the Formats of Each Slide .....	14-6
The Title Text.....	14-6
The Text Content.....	14-7
Adjusting Slide Masters.....	14-9
Adding Objects to Slide Masters.....	14-10
Footer Items .....	14-11
<b>Presentations Assignment 14.....</b>	<b>14-14</b>

## Chapter 15: Audio and Video Files

Loading the Presentation .....	15-1
Adding a Music Sound Track .....	15-1
Inserting a Music File.....	15-1
Formatting the Sound .....	15-3
Creating a Video Clip.....	15-5
<b>Presentations Assignment 15.....</b>	<b>15-8</b>

## Chapter 16: Useful Features

Loading the Presentation .....	16-1
Merging Shapes .....	16-1
Adding Shapes Together .....	16-1
Combining Shapes.....	16-3
Text Box Merging.....	16-5
The Eyedropper Tool .....	16-8
Screen Size .....	16-9
The Comments Pane .....	16-10

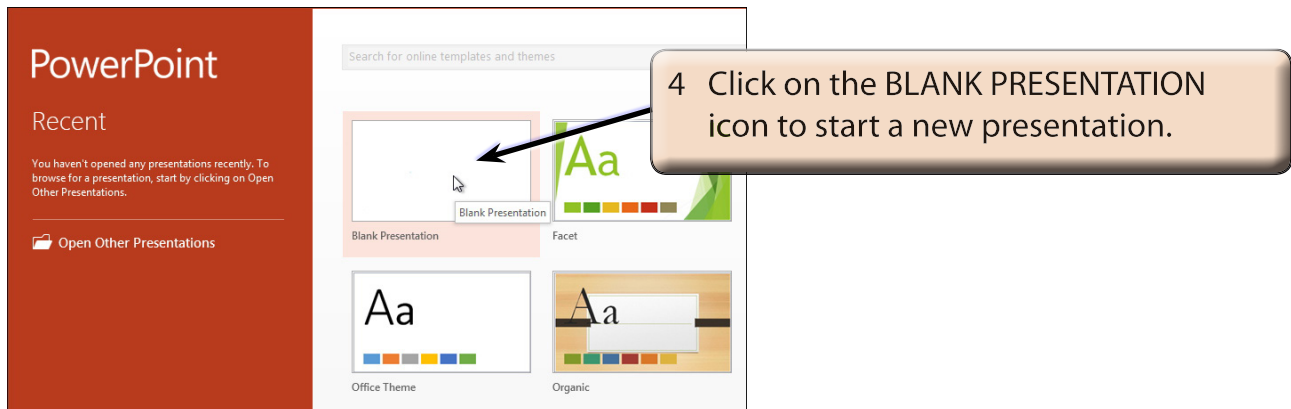

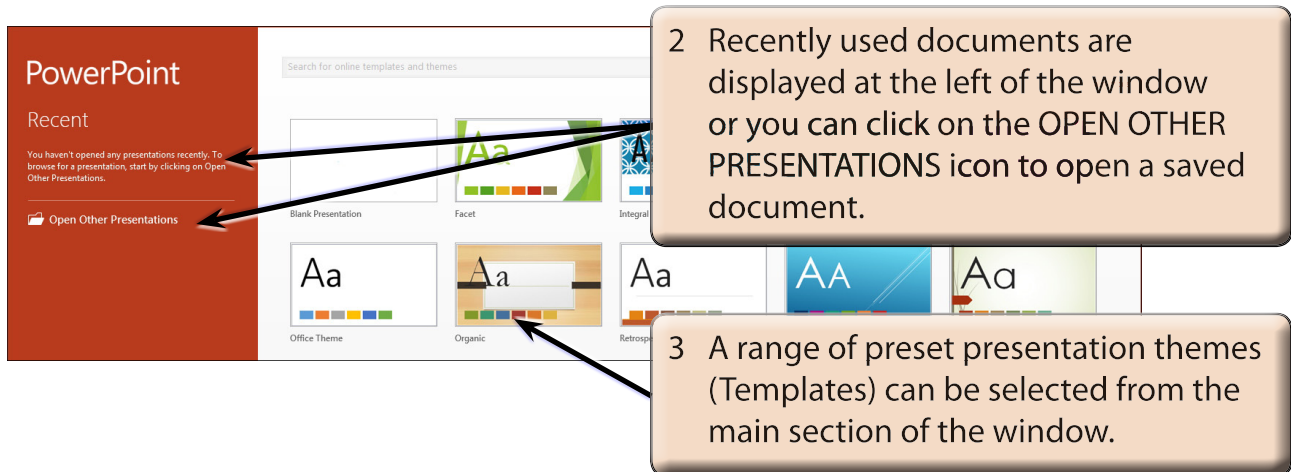

# Getting Started With PowerPoint

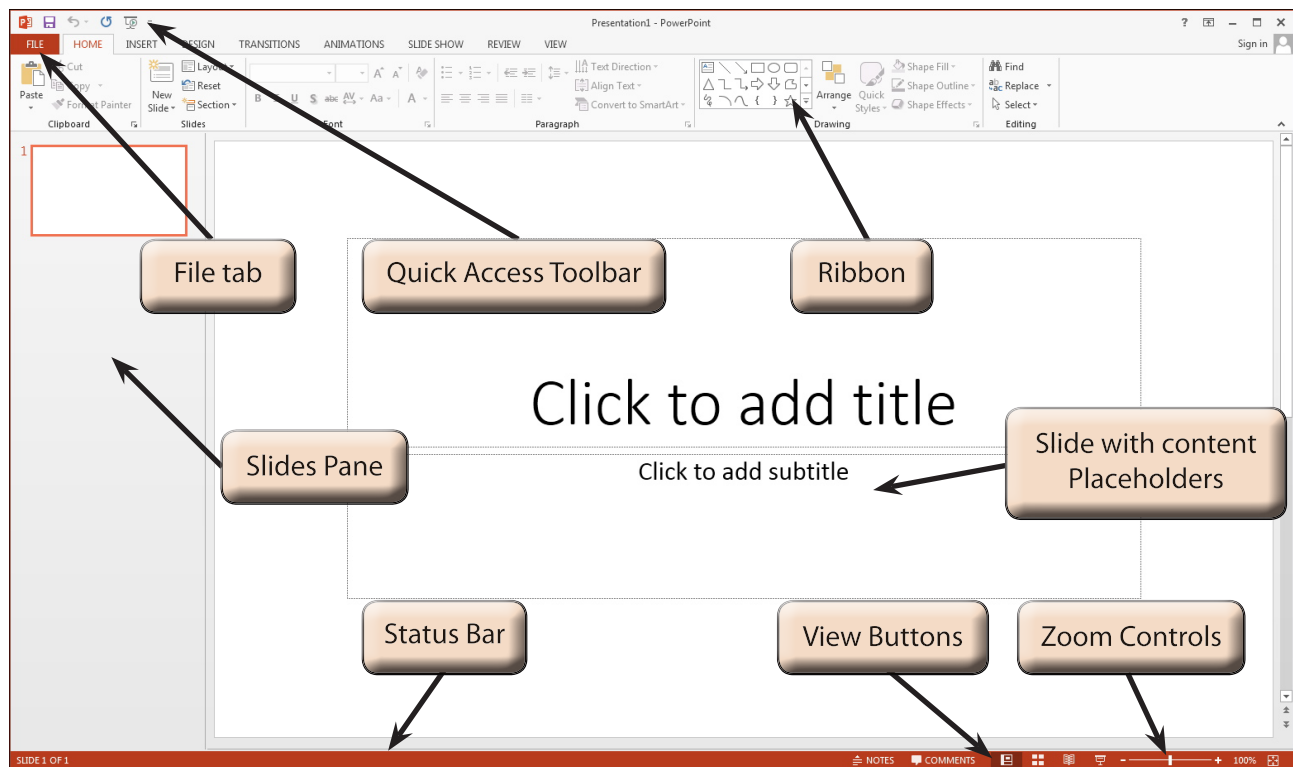

Microsoft PowerPoint is a program that allows you to create multimedia presentations. These include electronic slide shows and screen displays. For your first presentation you will create a slide show for the Wattle Valley Animal Park, which is a make believe zoo that maintains animals in their natural habitat.

## Starting a Presentation

- 1 Load Microsoft PowerPoint 2013 and you should receive the POWERPOINT START window.

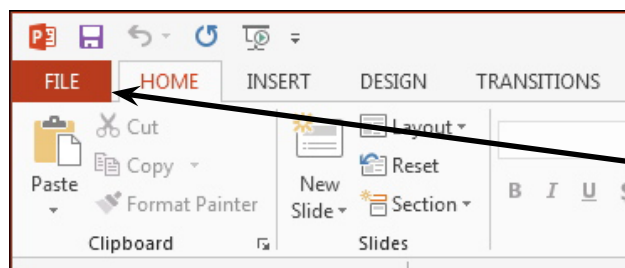

- 5 The POWERPOINT screen will open. Look at the labelled diagram at the top of the next page and refer to this diagram until you are fully familiar with the sections of the POWERPOINT screen.

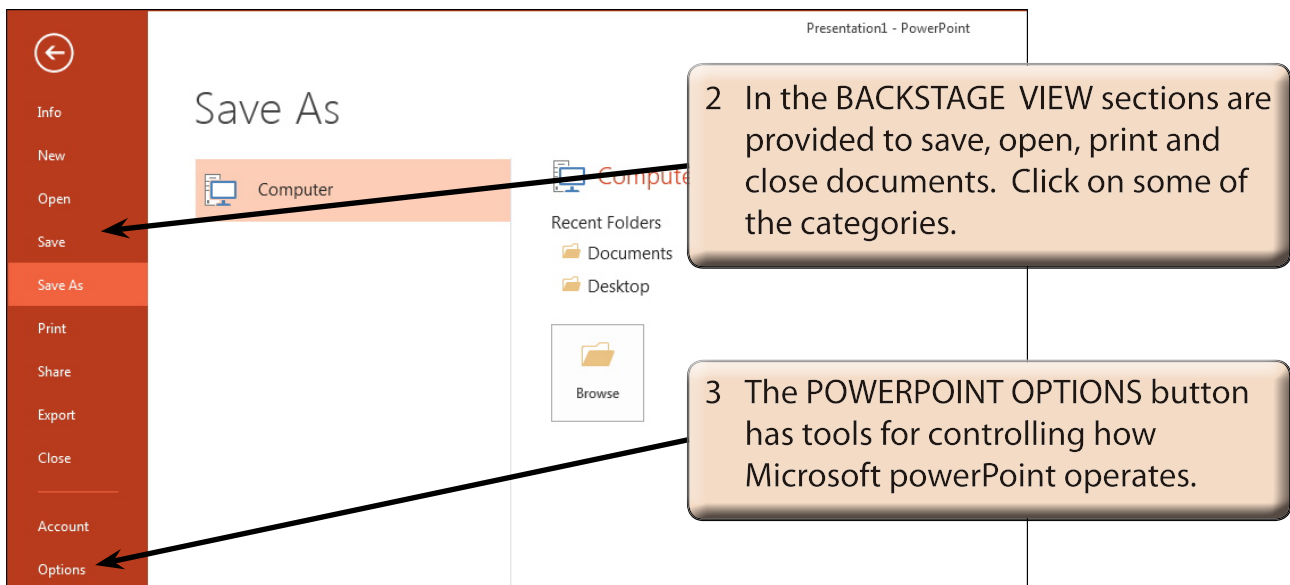

## The PowerPoint Screen Sections

There are different sections to the PowerPoint screen that you will regularly use.

### A The Backstage View

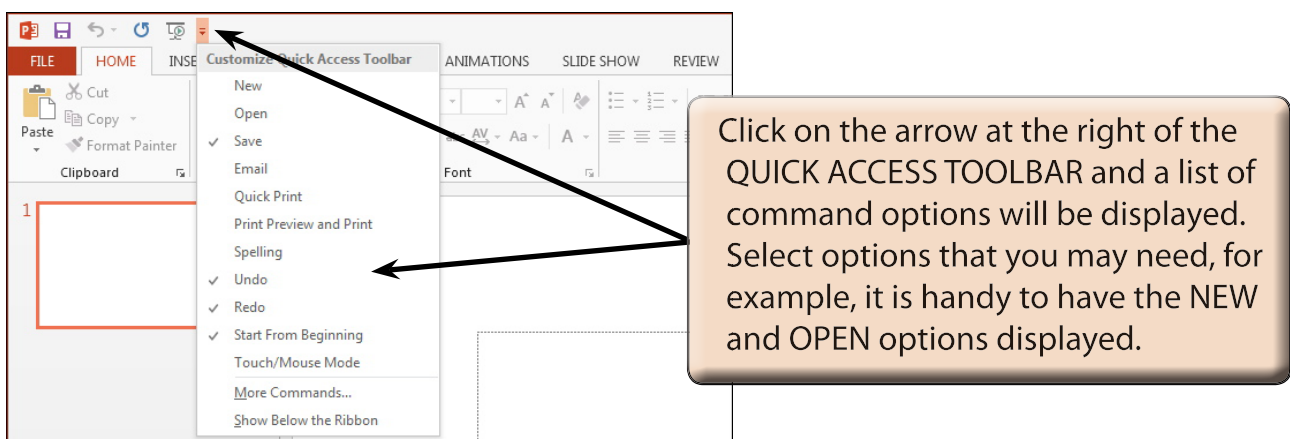

1 Click on the FILE tab at the top left of the screen to open the BACKSTAGE VIEW.

- 4 Click on the LEFT ARROW icon at the top left of the CATEGORIES to return to the PowerPoint screen.

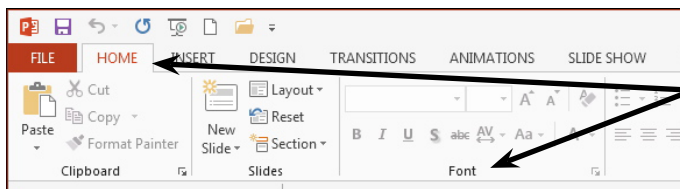

## B The Quick Access Toolbar

The QUICK ACCESS TOOLBAR is above the RIBBON at the top of the screen. It has buttons to save, undo or redo steps. You can add also common command buttons to it.

## C The Ribbon

The RIBBON across the top of the screen contains most of the PowerPoint commands in a variety of command TABS.

1 When you first load Microsoft PowerPoint the HOME tab of the RIBBON is open. It is broken up into GROUPS.

2 Click on each command TAB in turn to see what groups of commands they contain.

**Home Tab:** Contains the most common commands for formatting and editing slides.

**Insert Tab:** Contains commands for adding items to slides, for example, tables, graphics, headers and footers, etc.

**Design Tab:** Contains tools that control how slides look on the screen or when printed. These include page setup, slide orientation, themes, backgrounds, etc.

**Transitions Tab:** Contains tools for controlling how slides flow to other slides.

**Animations Tab:** Contains tools for adding animations to slides, such as animation effects, timings, etc.

**Slide Show Tab:** Contains tools to run the presentation. These include adding narrations, rehearsing a presentation, etc.

**Review Tab:** Contains tools for checking presentations. These include spell checking, thesaurus and adding comments.

**View Tab:** Contains tools to view documents on screen. These include zoom and master slide commands.

**NOTE:** Other tabs are added to the RIBBON when you select or add items to a presentation.

# Using Graphics in Slides

Graphics can make presentations more interesting. In this chapter you will learn how to add images and photos to slides. To demonstrate this, slides about Jungle Safaris and Wild River Rides will be added to the Wattle Valley Animal Park presentation.

## Loading the Presentation

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

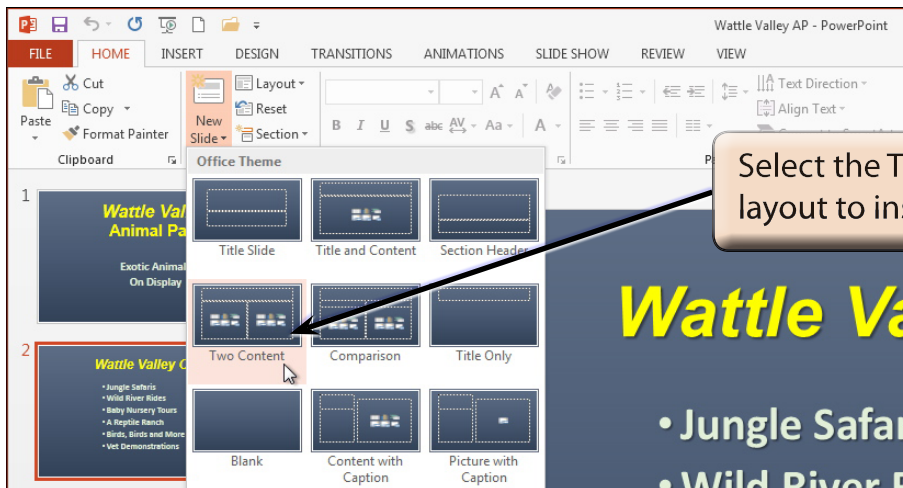

## Creating the New Slide

**NOTE:** New slides are added after the selected slide. If the first slide was selected the new slide would be placed between the two slides.

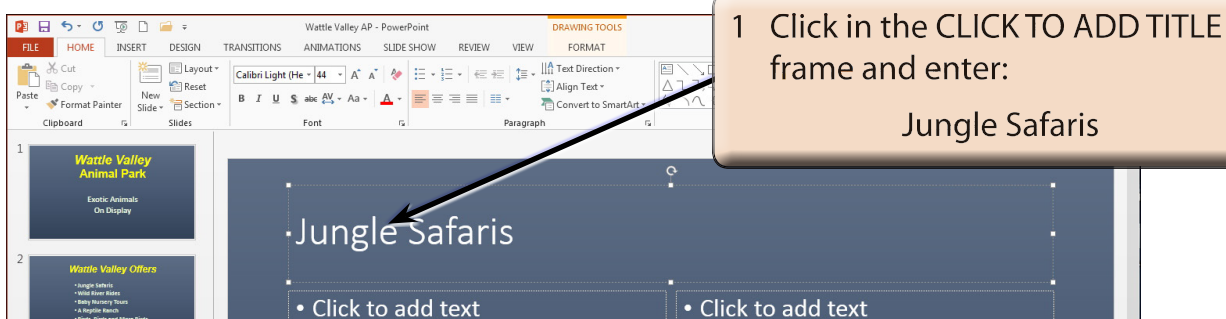

## Selecting the Slide Layout

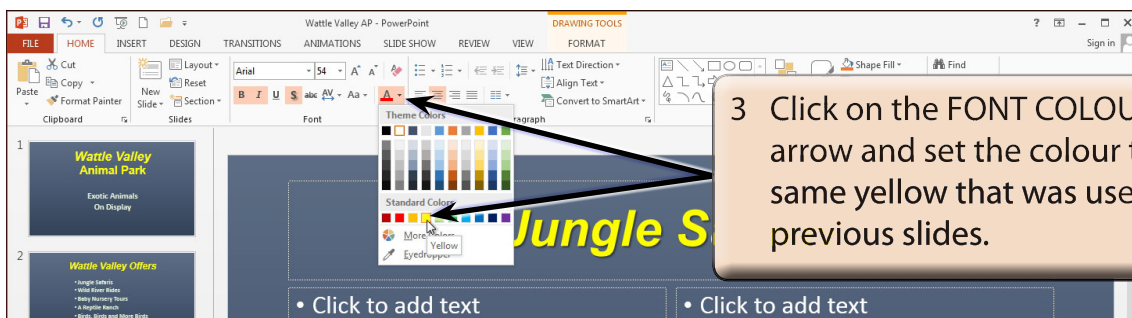

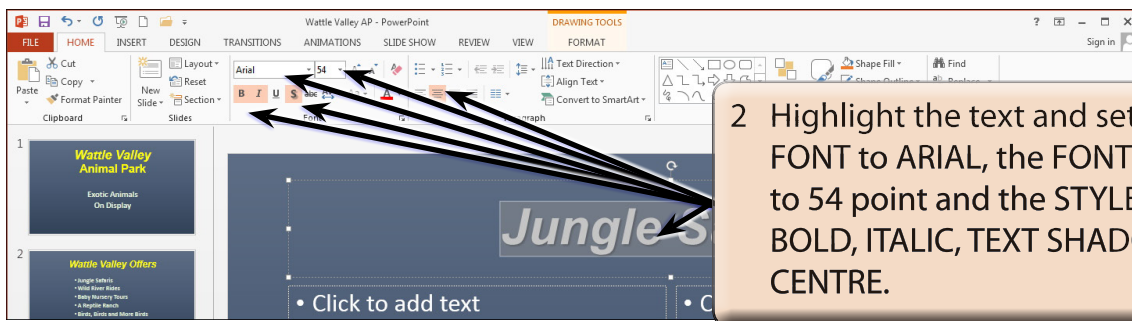

For this new slide we will need text and graphics side by side so a suitable slide layout will need to be selected.

**NOTE:** CONTENT is a term to represent text, pictures, SmartArt graphics, movie clips, etc.

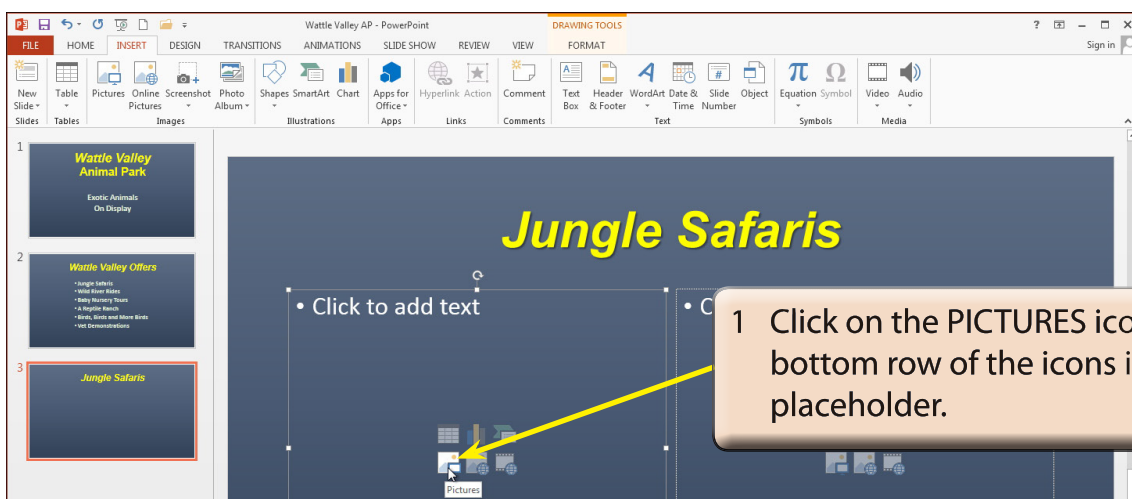

## Entering the Slide Title

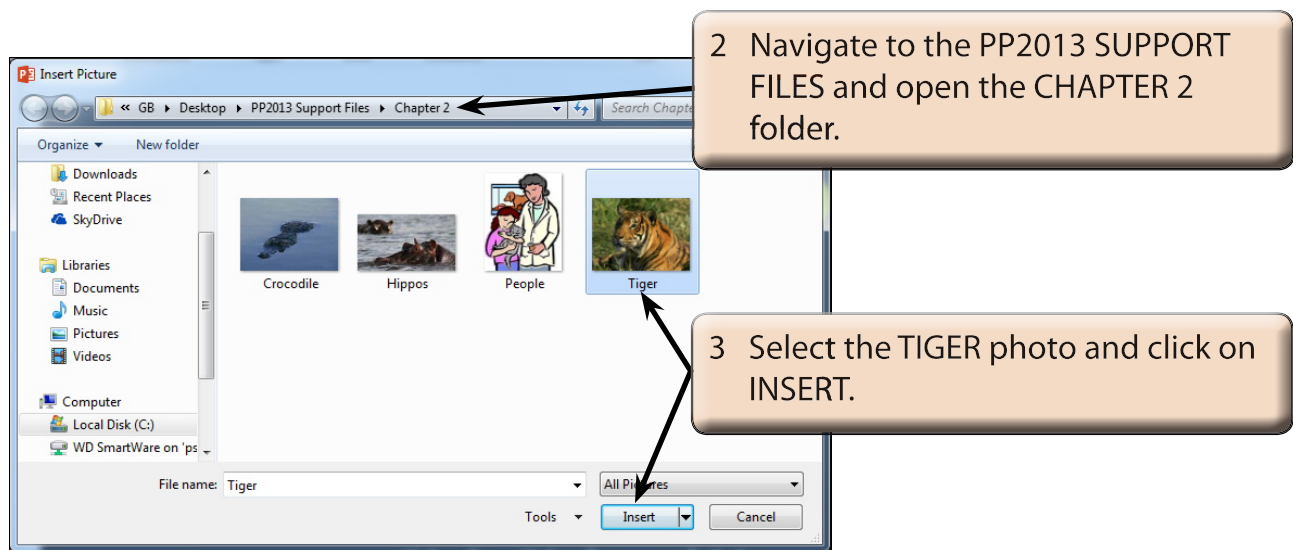

## Inserting an Image

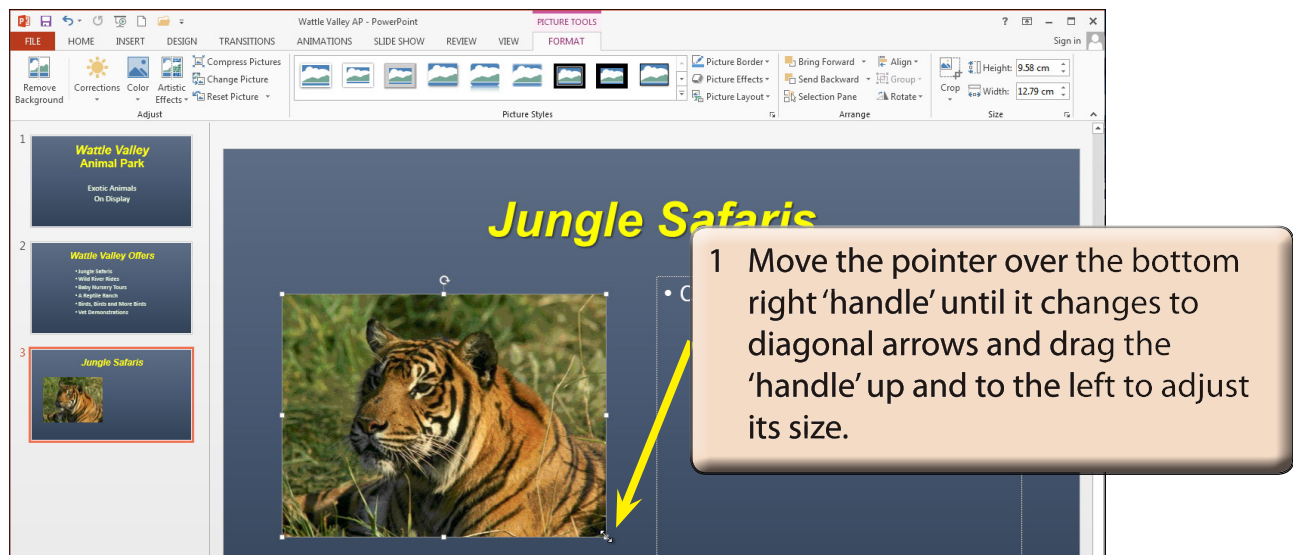

Microsoft PowerPoint allows Photos and ClipArt images to be imported into slides. These will be imported from the PP2013 SUPPORT FILES. You might need to find out where those files are located on your system from your teacher. Or you can substitute photos from your school's graphics library.

## Adjusting the Image

The size and position of the image can be adjusted.

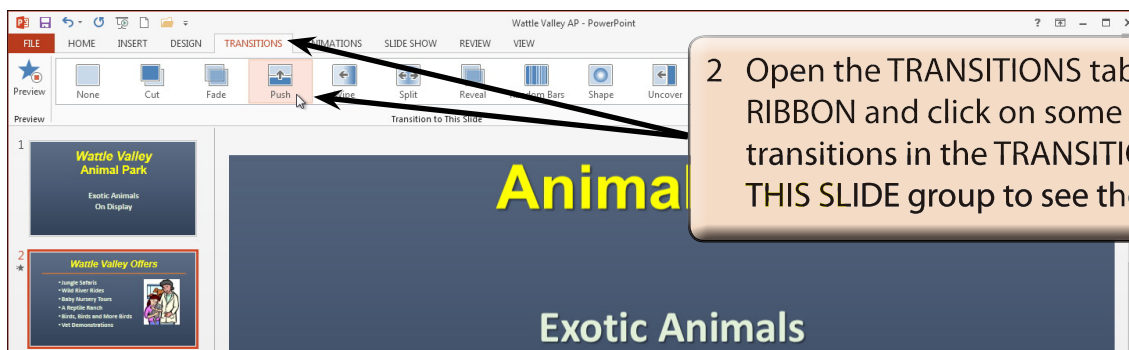

# Using Transitions

Transitions allow you to phase the change from one slide to the next using a selected animation. You can apply a transition to one slide or to a group of slides.

## Loading the Presentation

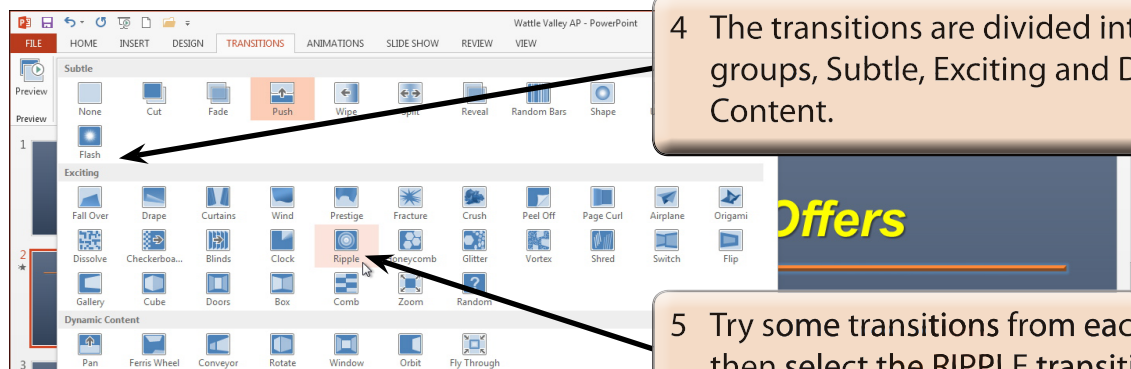

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

## Applying a Transition to One Slide

3 Click on the MORE icon at the bottom right the TRANSITION TO THIS SLIDE group in the TRANSITIONS tab.

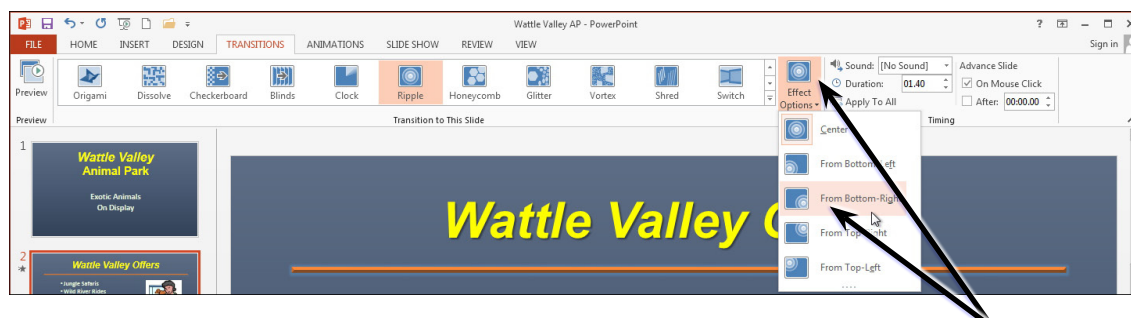

4 The transitions are divided into 3 groups, Subtle, Exciting and Dynamic Content.

5 Try some transitions from each group then select the RIPPLE transition.

## Effect Options

There are effects that can be applied to selected transitions. These effects vary depending on the transition you select.

Click on the EFFECT OPTIONS icon in the TRANSITIONS tab and select an effect.

# Animation Effects

You can enhance the appearance of slides through the use of animation effects. For example, you can make text fly onto the screen one point at a time, dim it after it has been viewed, make graphics move around the screen or fade in and out, and add sounds to objects.

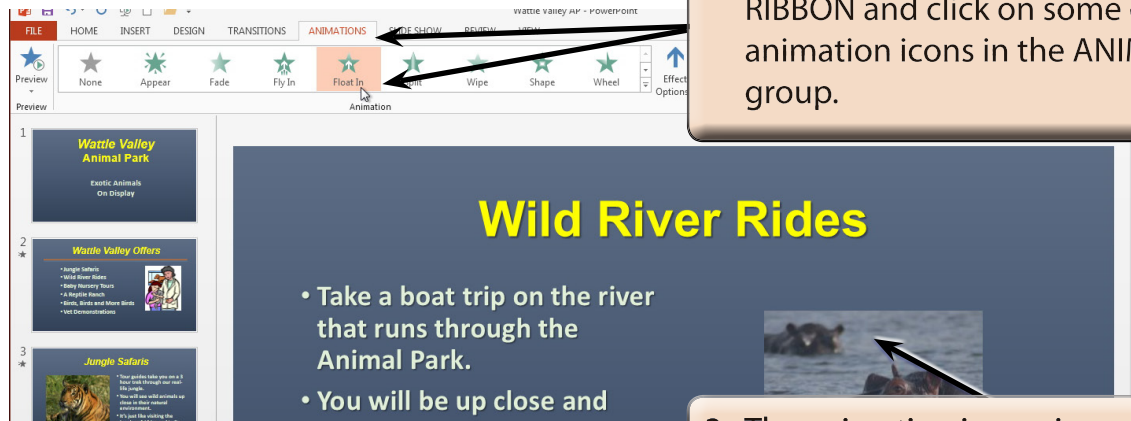

## Loading the Presentation

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

## Adding Animation Effects

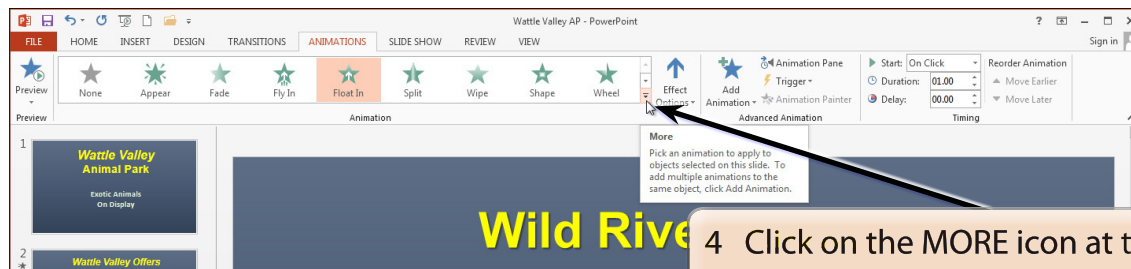

You can quickly apply effects to placeholders to animate their contents.

1 Select SLIDE 4 in the SLIDES pane and click on the HIPPOS image to select it.

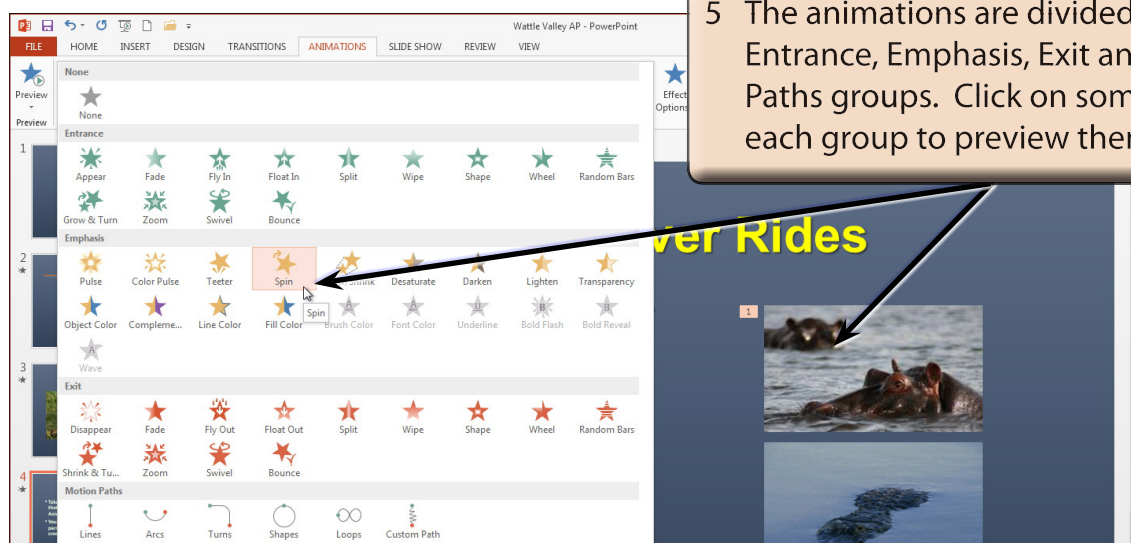

2 Open the ANIMATIONS tab of the RIBBON and click on some of the animation icons in the ANIMATION group.

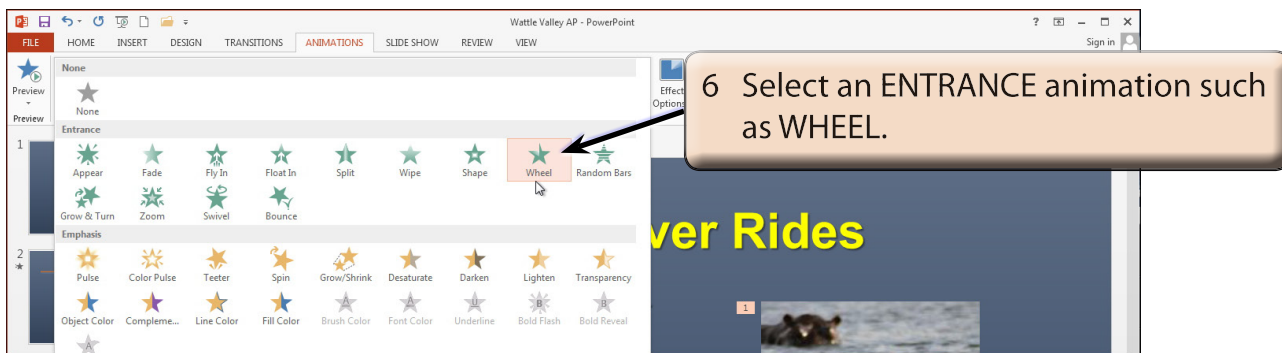

3 The animation is previewed on the HIIPPOS placeholder each time.

4 Click on the MORE icon at the bottom right of the ANIMATION group to see more animations.

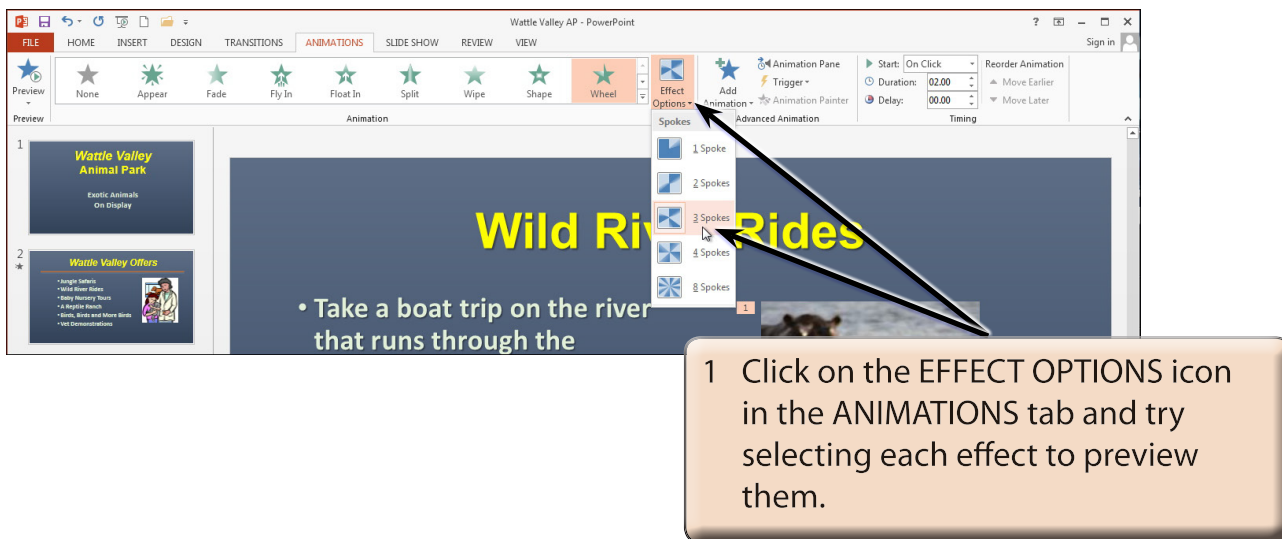

5 The animations are divided into Entrance, Emphasis, Exit and Motion Paths groups. Click on some from each group to preview them.

## Effect Options

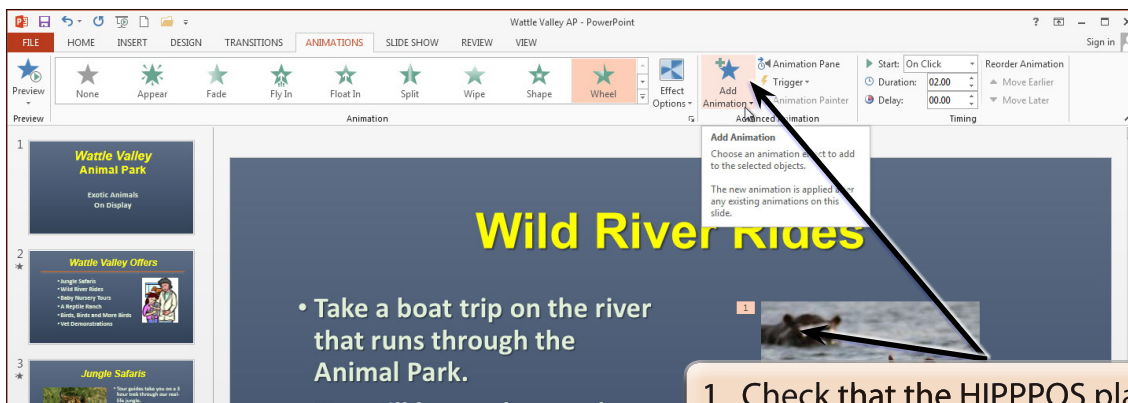

Most effects have a series of options that can be applied to them. These effects vary for different animations.

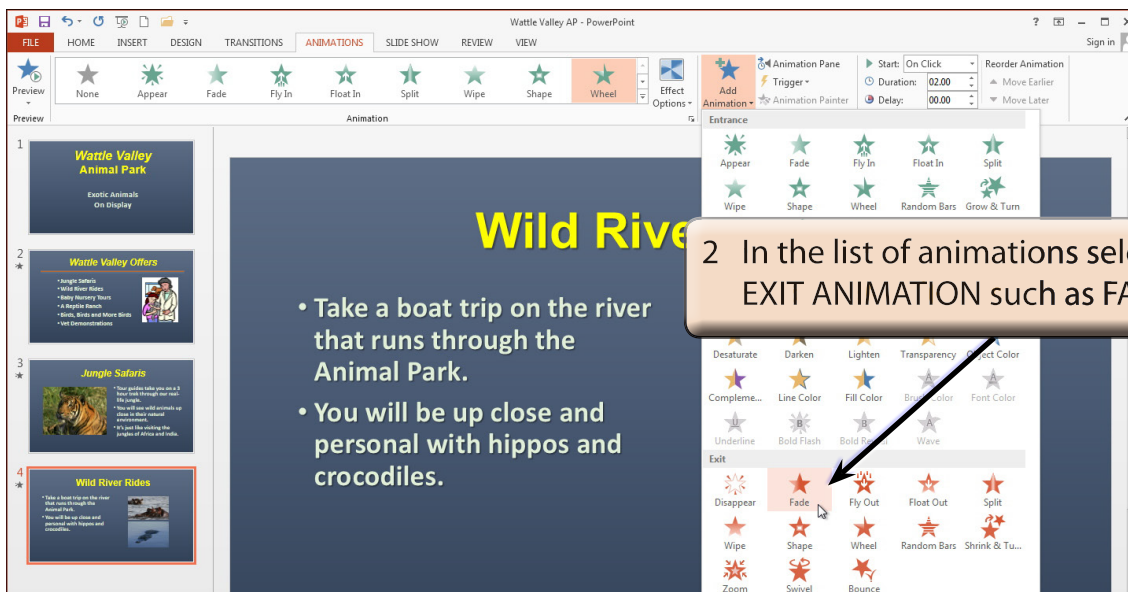

2 Select an effect that you like.

## Adding Animation Effects

You can apply more than one animation effect to a placeholder. Additional animations play in the order that you apply them. Let's add an exit animation to the HIPPOS placeholder.

1 Check that the HIPPPPOS placeholder is selected then click on the ADD ANIMATION icon in the ANIMATIONS tab of the RIBBON.

2 In the list of animations select an EXIT ANIMATION such as FADE.

**NOTE:** Exit animations are usually set to operate at the end of a slide.

# Adding Movie Clips to Slides

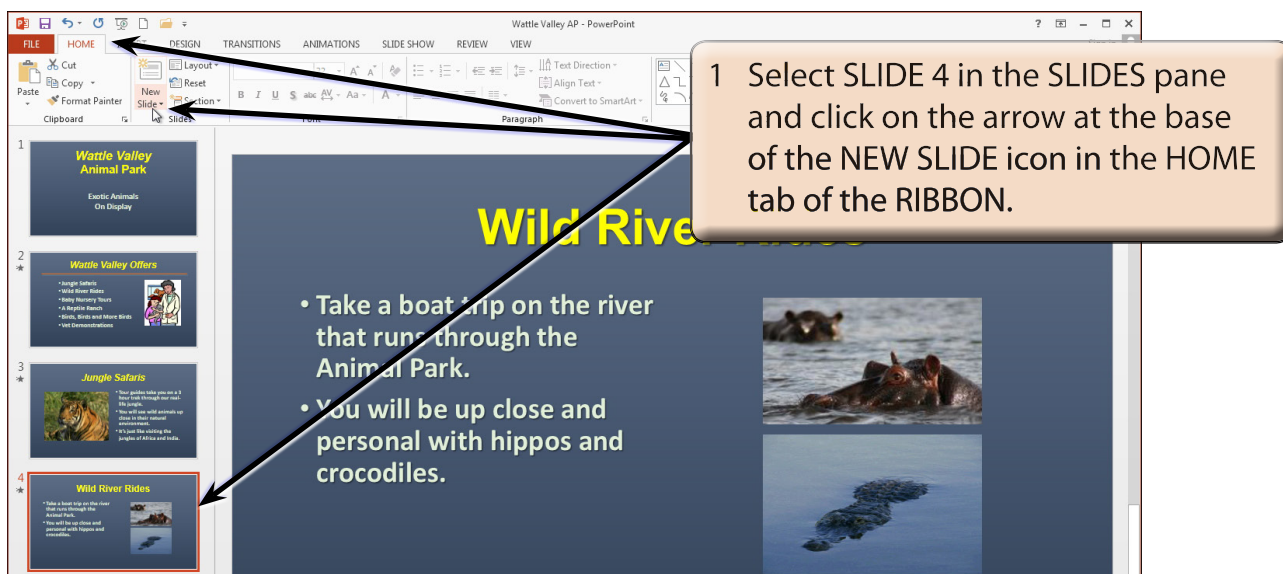

Movie clips can be included in slides and set to play when the slide is viewed or when the mouse is clicked on the clip. The movie clip can also be formatted and edited from within PowerPoint.

## Loading the Presentation

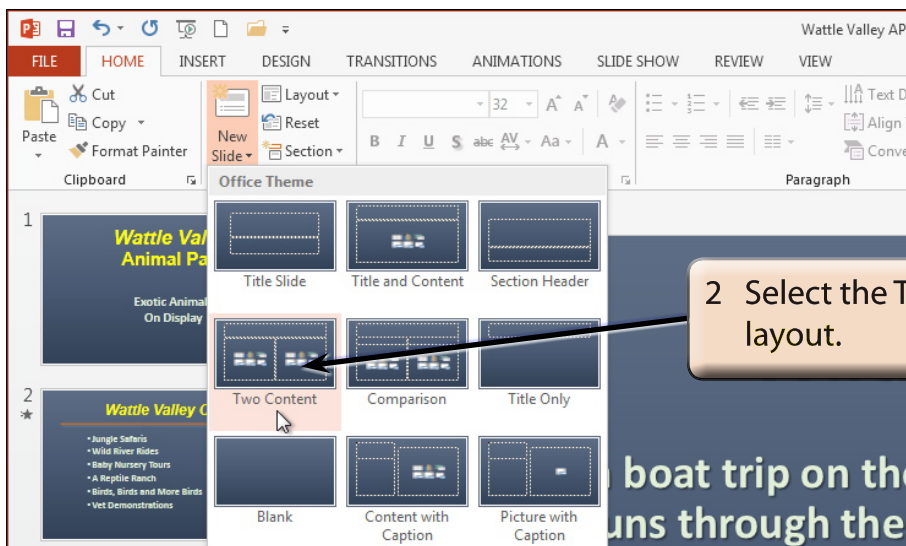

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

## Creating a New Slide

### A Selecting the Layout

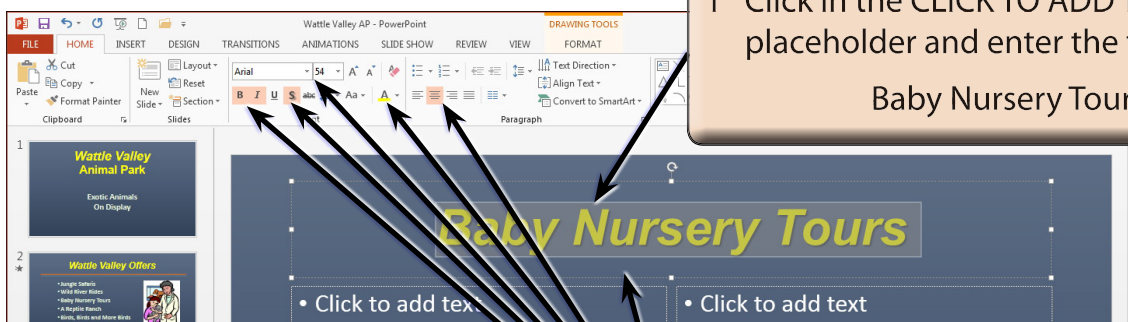

1 Select SLIDE 4 in the SLIDES pane and click on the arrow at the base of the NEW SLIDE icon in the HOME tab of the RIBBON.

2 Select the TWO CONTENT slide layout.

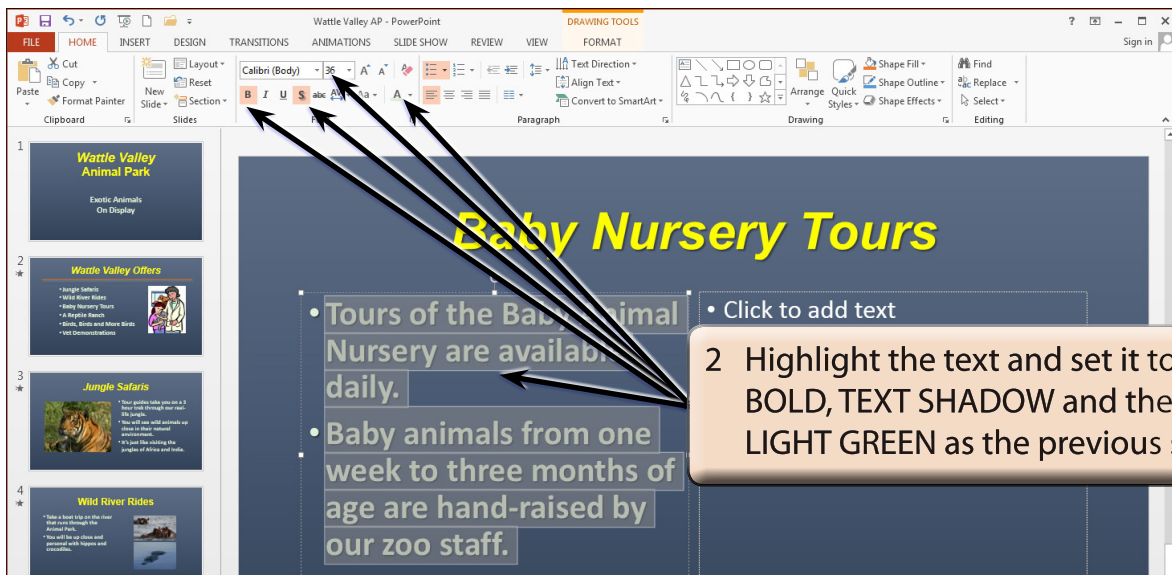

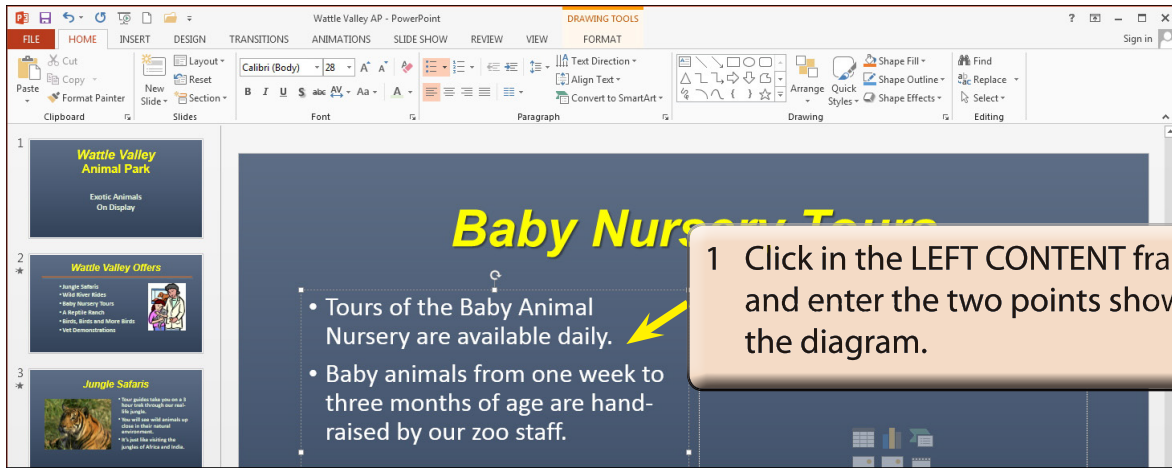

### B Entering the Slide Title

1 Click in the CLICK TO ADD TITLE placeholder and enter the title:  
Baby Nursery Tours

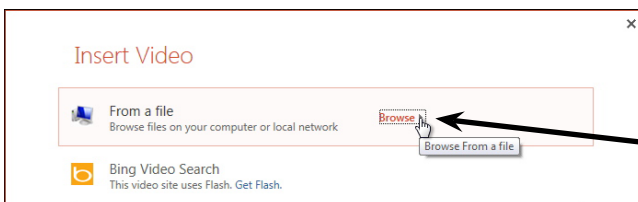

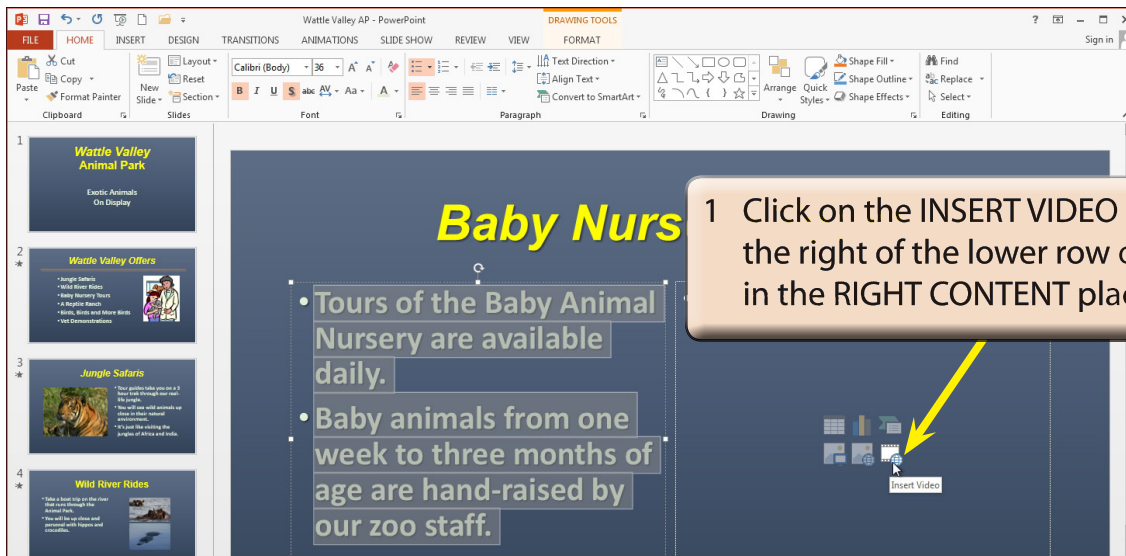

2 Highlight the text and format it to ARIAL, 54 point, BOLD, ITALIC, TEXT SHADOW, YELLOW and CENTRE.

## C Adding the Text

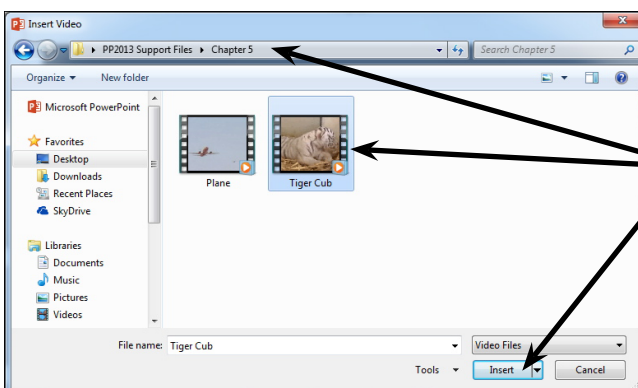

## D Inserting the Movie Clip

A sample movie clip will be imported. However, your school may have better quality movie clips for you to use instead.

**NOTE: If you are not connected to the internet, select WORK OFFLINE.**

# Adding Diagrams to Slides

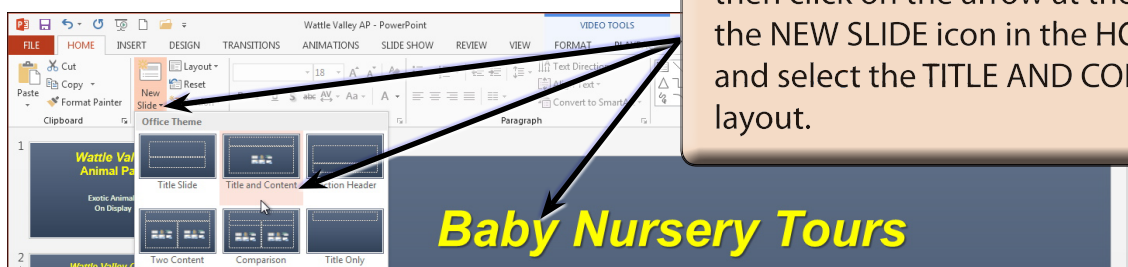

PowerPoint provides a large range of diagrams that can be included in slides. These include organisation charts, flow charts, process diagrams and relationship diagrams. In this case a slide containing an organisation chart about the different types of reptiles at the Wattle Valley Animal Park will be created.

## Loading the Presentation

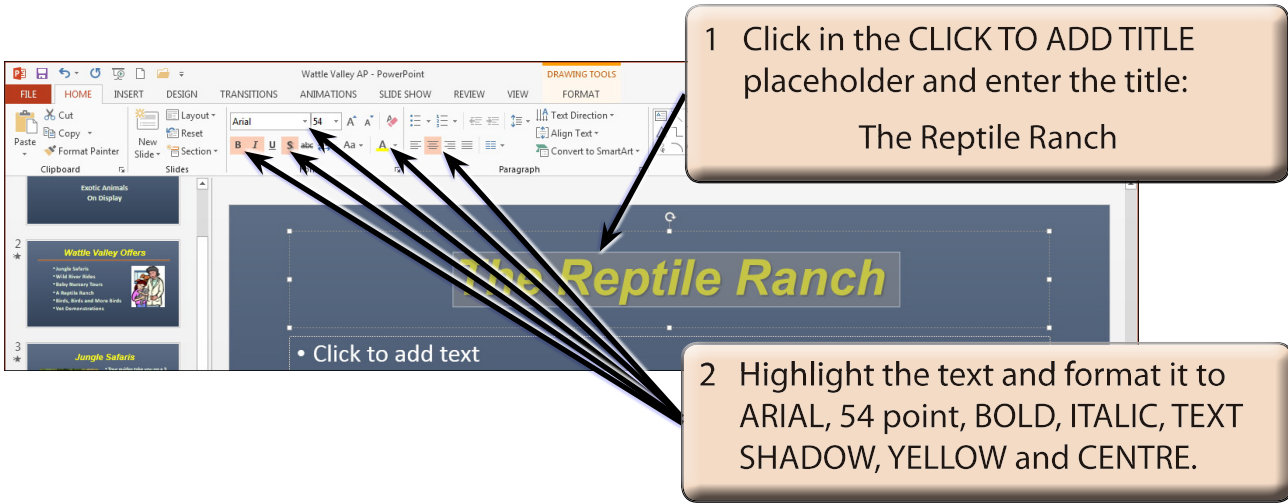

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

## Creating a New Slide

### A Selecting the Layout

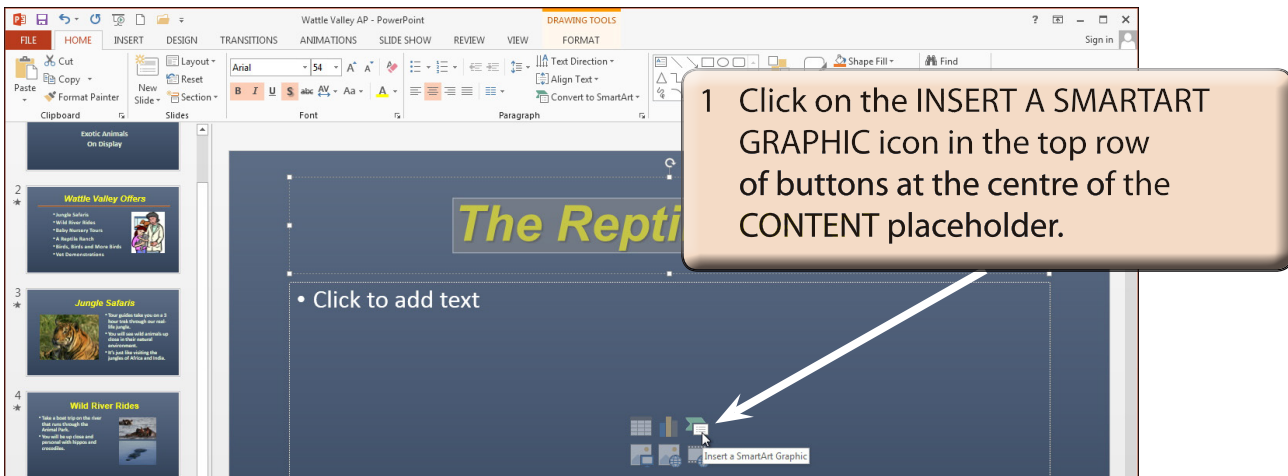

## B Adding the Title

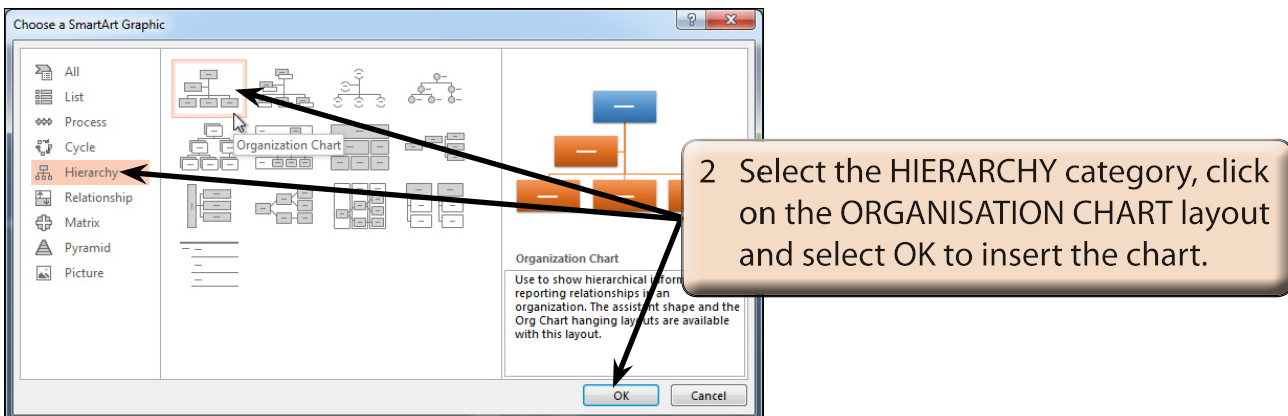

1 Click in the CLICK TO ADD TITLE placeholder and enter the title:  
The Reptile Ranch

2 Highlight the text and format it to ARIAL, 54 point, BOLD, ITALIC, TEXT SHADOW, YELLOW and CENTRE.

## Inserting the Diagram

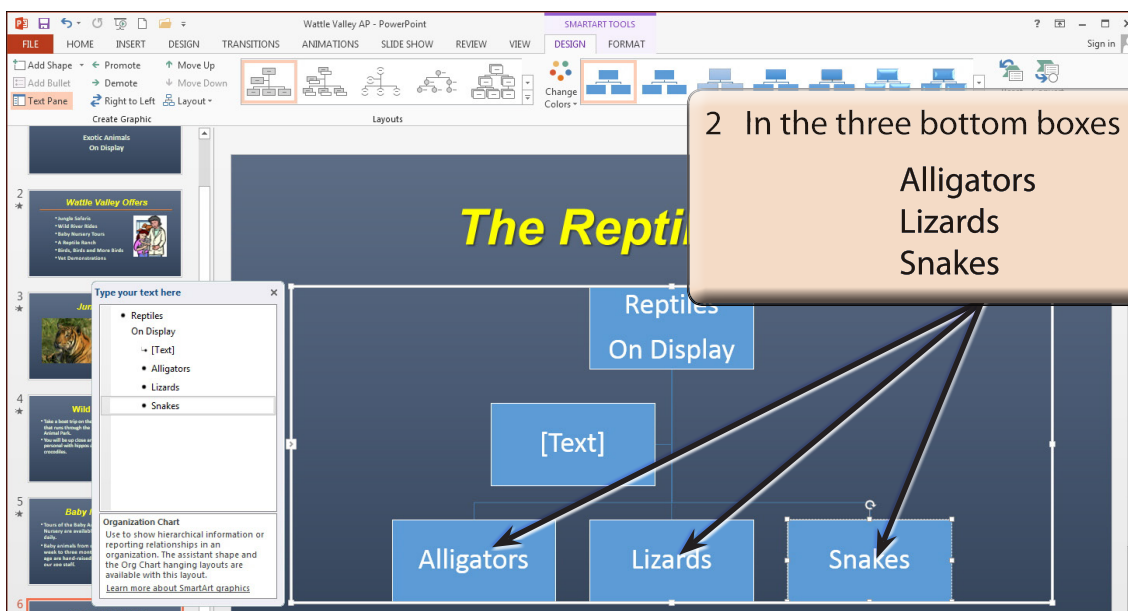

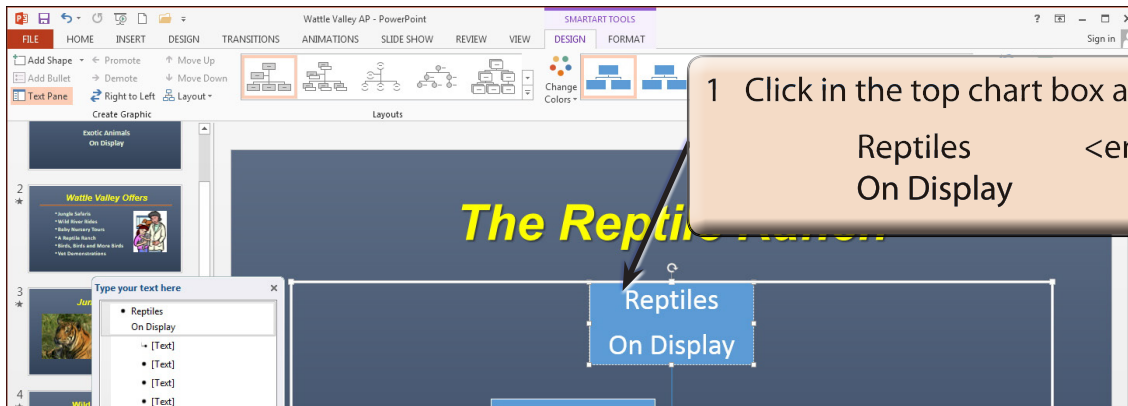

1 Click on the INSERT A SMARTART GRAPHIC icon in the top row of buttons at the centre of the CONTENT placeholder.

2 Select the HIERARCHY category, click on the ORGANISATION CHART layout and select OK to insert the chart.

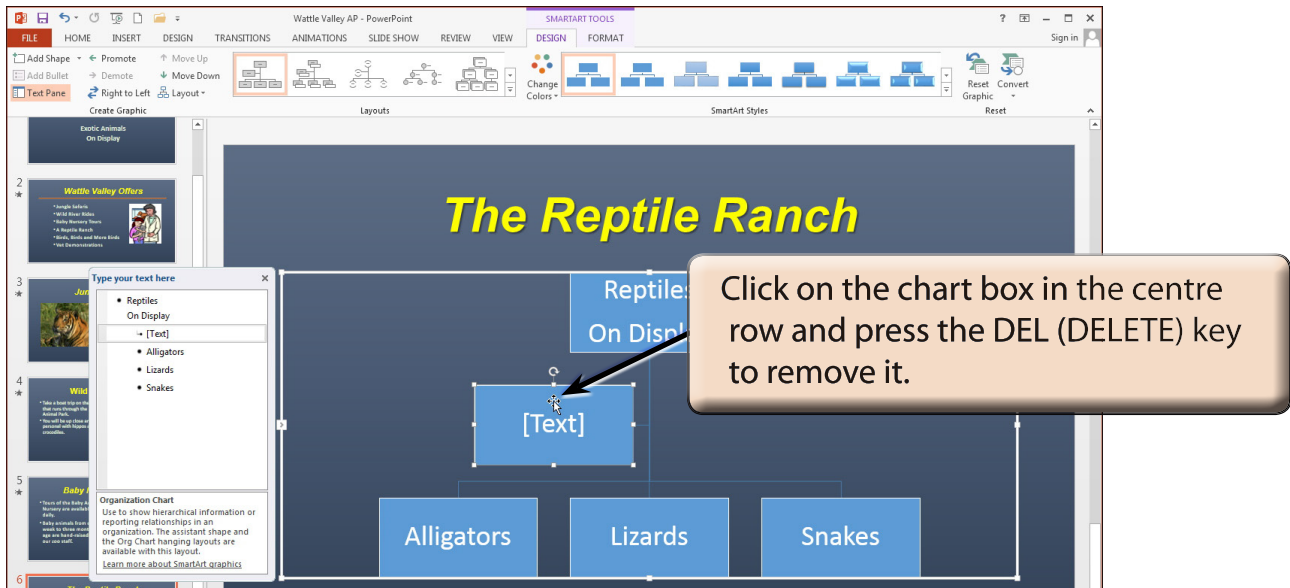

## Entering the Chart Labels

- NOTE:**
- i You can also enter text in the TYPE YOUR TEXT HERE pane which is displayed at the left of the SMARTART GRAPHIC frame.
  - ii If the TYPE YOUR TEXT HERE pane is not on the screen, it can be turned on using the TEXT PANE icon in the DESIGN tab.

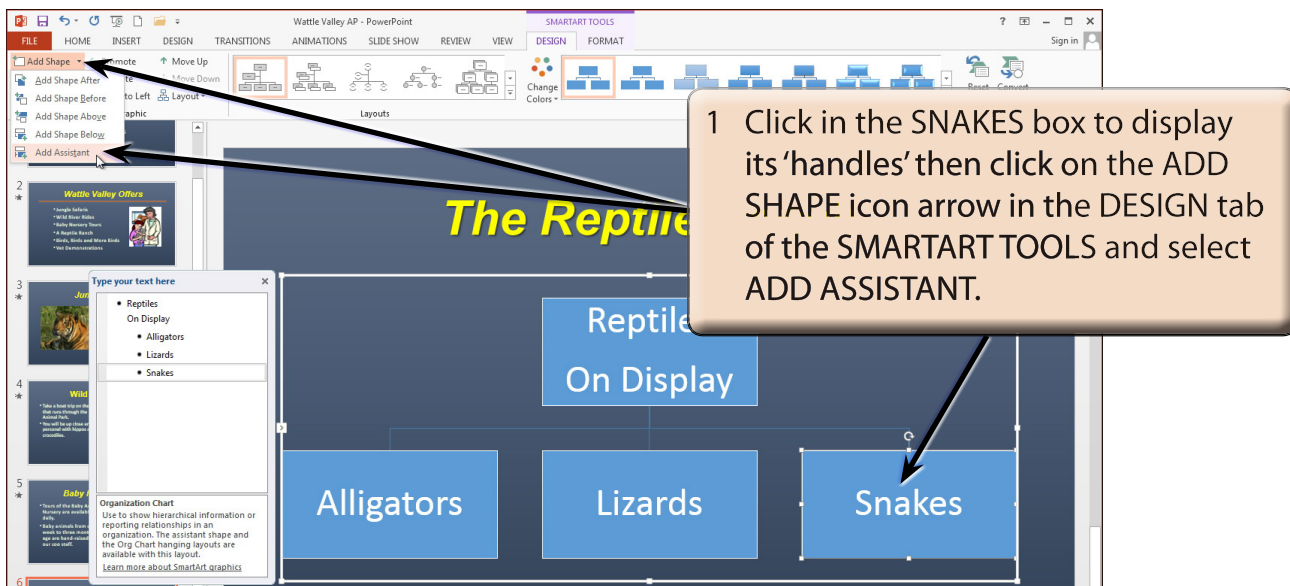

## Deleting Chart Boxes

The centre box will not be needed in this case, so it will be removed.

## Adding More Chart Boxes

You can add more boxes to the chart either on the same level as the existing boxes or above or below them.

# Formatting and Aligning Slide Content

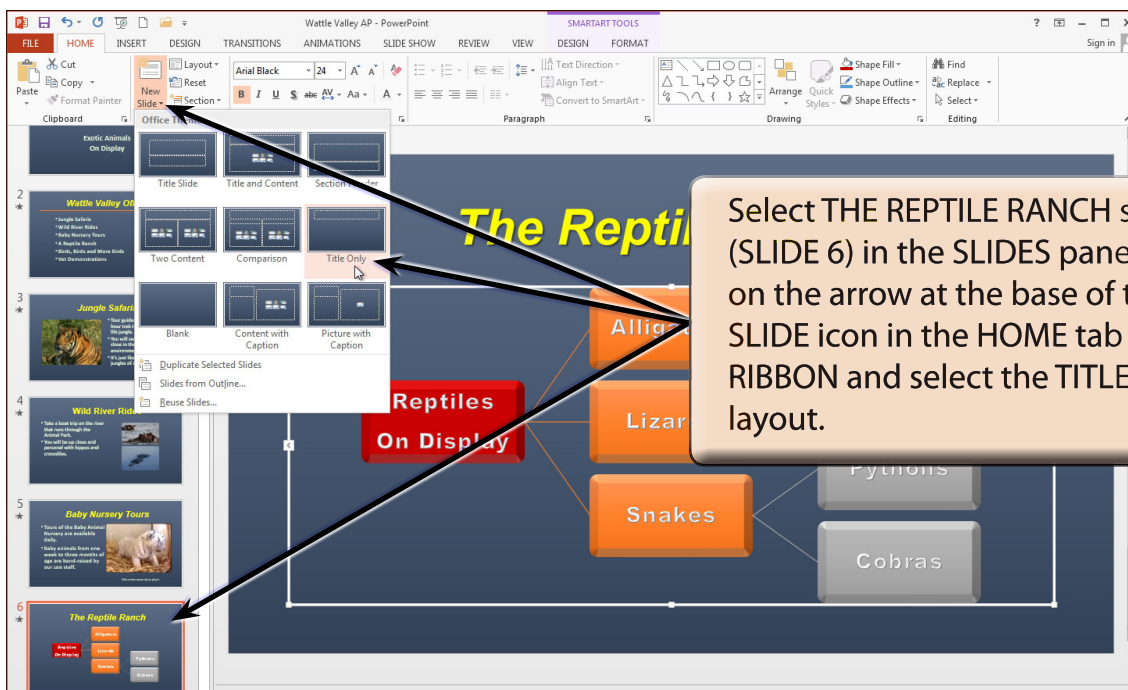

When you want to include multiple items such as photos on a slide it is important to ensure that they are formatted in a similar fashion and aligned neatly. In this case a slide will be created for the Wattle Valley Animal Park that includes multiple photographs of birds.

## Loading the Presentation

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

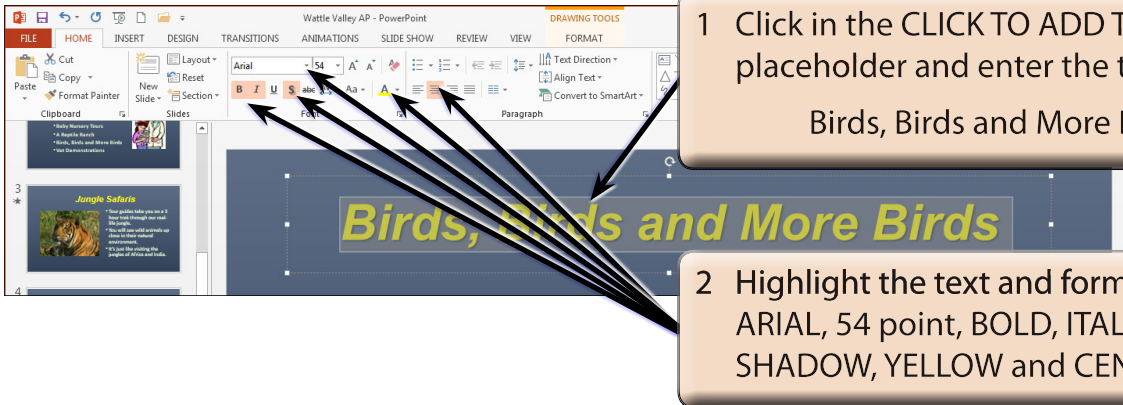

## Creating a New Slide

### A Selecting the Layout

Select THE REPTILE RANCH slide (SLIDE 6) in the SLIDES pane, click on the arrow at the base of the NEW SLIDE icon in the HOME tab of the RIBBON and select the TITLE ONLY layout.

## B Entering the Slide Title

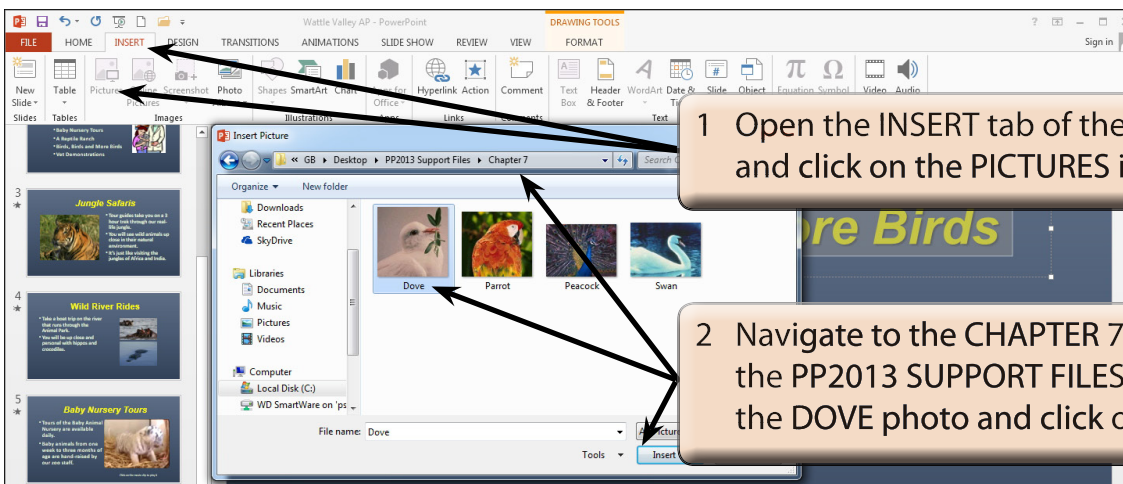

1 Click in the CLICK TO ADD TITLE placeholder and enter the title:  
Birds, Birds and More Birds

2 Highlight the text and format it to ARIAL, 54 point, BOLD, ITALIC, TEXT SHADOW, YELLOW and CENTRE.

## The First Photograph

Photographs will be inserted from the PP2013 SUPPORT FILES, resized, moved and formatted.

## A Inserting the Photograph

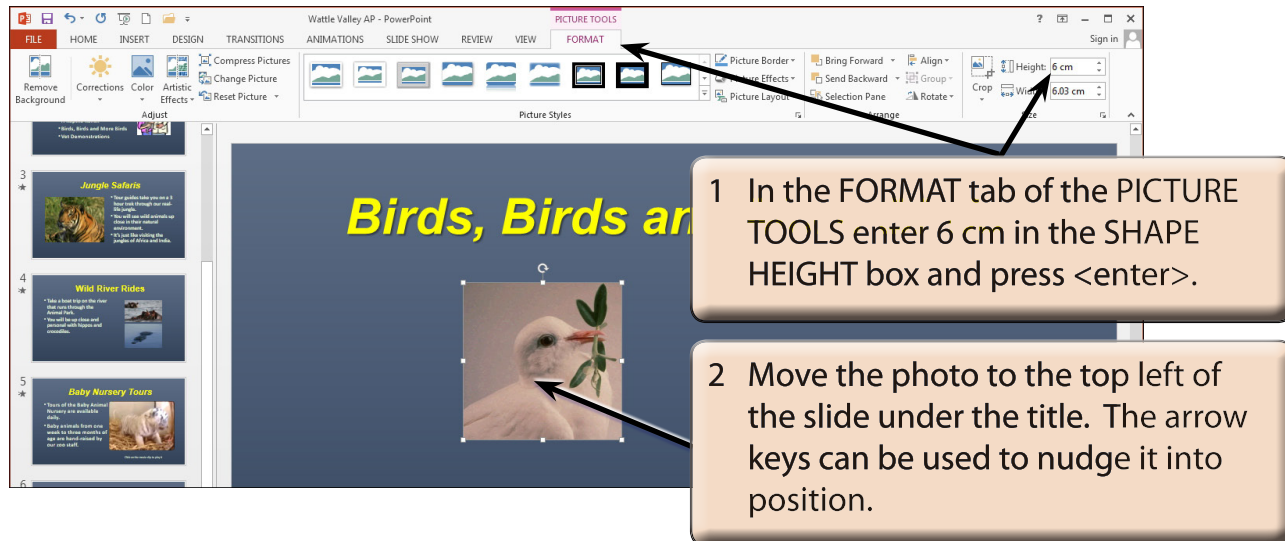

1 Open the INSERT tab of the RIBBON and click on the PICTURES icon.

2 Navigate to the CHAPTER 7 folder of the PP2013 SUPPORT FILES, select the DOVE photo and click on INSERT.

## B Adjusting the Shape Height

The size of the photograph can be adjusted by setting the SHAPE HEIGHT.

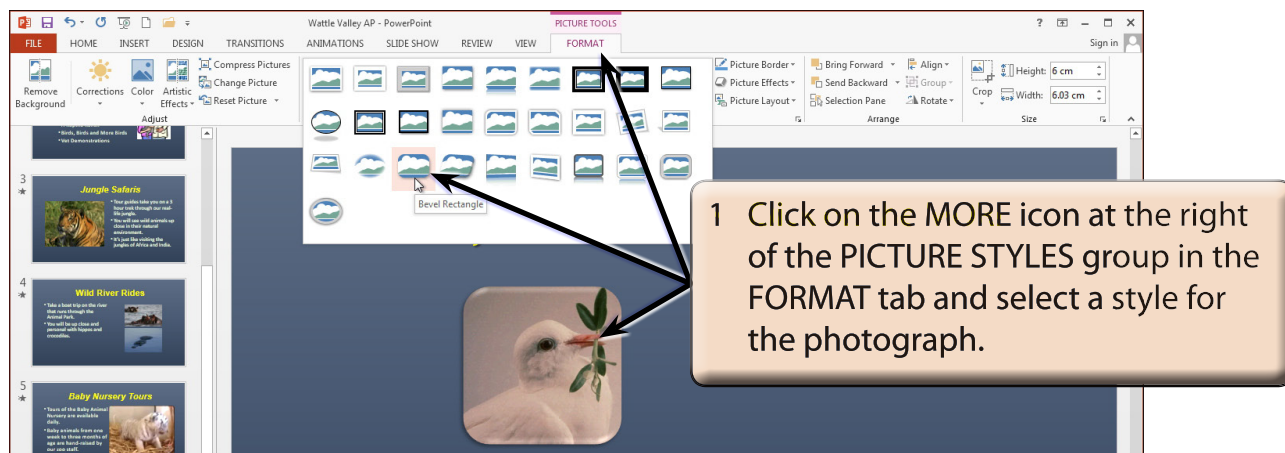

1 In the FORMAT tab of the PICTURE TOOLS enter 6 cm in the SHAPE HEIGHT box and press <enter>.

2 Move the photo to the top left of the slide under the title. The arrow keys can be used to nudge it into position.

**NOTE:** When you set the SHAPE HEIGHT, the SHAPE WIDTH is also adjusted to keep the dimensions of the object proportional. If you don't want this to occur, click on the arrow to the right of the SIZE group label in the FORMAT tab to display the SIZE AND POSITION dialogue box and turn off LOCK ASPECT RATIO.

## C Formatting the Photograph

1 Click on the MORE icon at the right of the PICTURE STYLES group in the FORMAT tab and select a style for the photograph.

- 2 You can also add some effects to the photograph using the PICTURE EFFECTS icon in the FORMAT tab of the PICTURE TOOLS if you wish to.

## The Second Photograph

### A Inserting the Photograph

1 Open the INSERT tab of the RIBBON and click on the PICTURES icon.

2 Navigate to the CHAPTER 7 folder of the PP2013 SUPPORT FILES, select the PARROT photo and click on INSERT.

3 In the FORMAT tab of the RIBBON enter 6 cm in the SHAPE HEIGHT box and press <enter>.

4 Move the photo to the top right of the slide under the title

**NOTE:** Guide lines are displayed between objects when you move objects close to each other to allow you to quickly align objects.

# Inserting Tables in Slides

Tables allow you to place text in rows and columns. They are an excellent way to display detailed information neatly. Let's provide a table for the Wattle Valley Animal Park that indicates the times and locations that the Vet demonstrations take place.

## Loading the Presentation

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

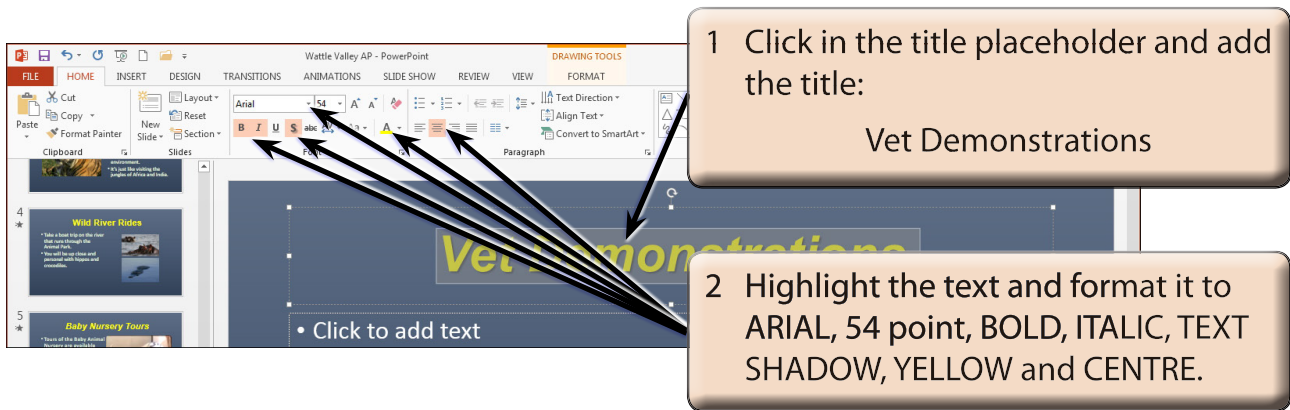

## Selecting the Layout

The screenshot shows the Microsoft PowerPoint interface. The HOME tab is selected on the ribbon. The 'NEW SLIDE' button is highlighted with a callout box. The slide content area shows a slide titled 'Birds, Birds and More Birds'. A second callout box points to the 'BIRDS' slide in the slide navigation pane.

1 Set the screen to the BIRDS slide.

2 In the HOME tab of the RIBBON click on the NEW SLIDE icon arrow and select the TITLE AND CONTENT layout.

## Entering the Slide Title

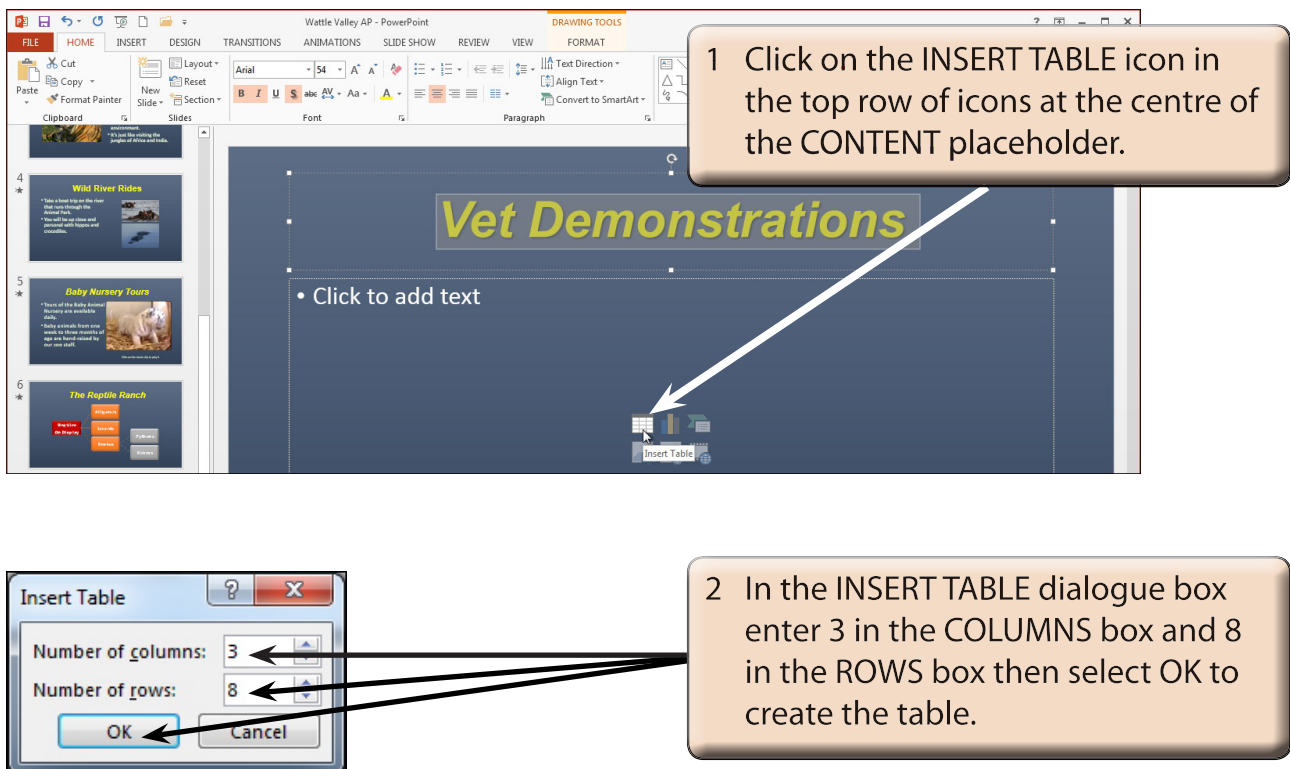

1 Click in the title placeholder and add the title:

Vet Demonstrations

2 Highlight the text and format it to ARIAL, 54 point, BOLD, ITALIC, TEXT SHADOW, YELLOW and CENTRE.

## Adding the Table

A table with 3 columns and 8 rows will be required.

1 Click on the INSERT TABLE icon in the top row of icons at the centre of the CONTENT placeholder.

2 In the INSERT TABLE dialogue box enter 3 in the COLUMNS box and 8 in the ROWS box then select OK to create the table.

**NOTE:** You can also insert a table into a slide using the TABLE icon in the INSERT tab of the RIBBON.

## Entering the Table Items

Enter the values shown in the diagram. You can press the TAB key to move the cursor to the next cell after an entry.

Day	Times	Location
Weekdays	9:00 – 11:00	Nursery
	2:00 – 4:00	Animal Hospital
Saturday	9:00 – 11:00	Reptile Ranch
	1:00 – 3:00	Animal Hospital
Sunday	1:00 – 3:00	Nursery

## The Table Styles

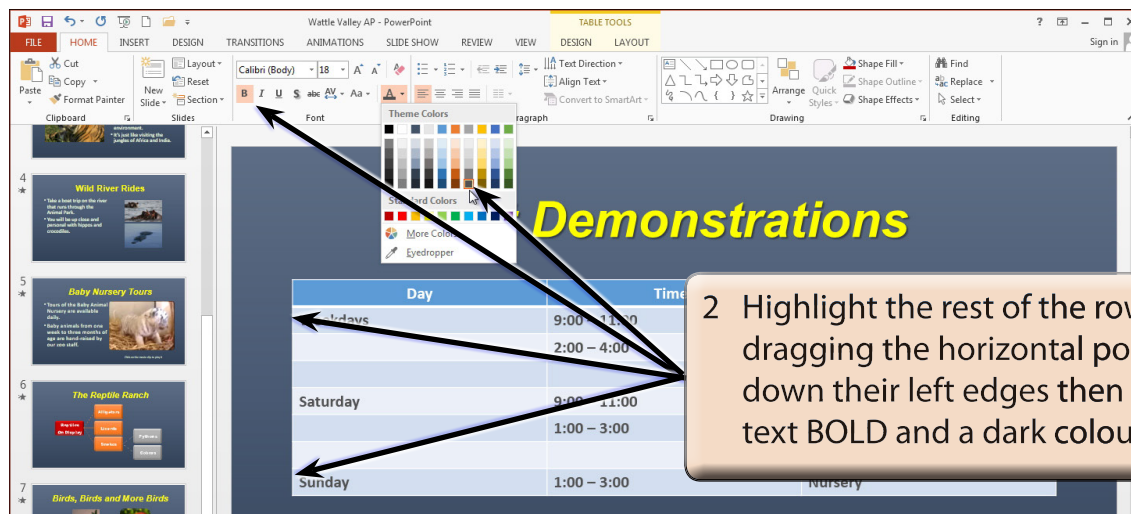

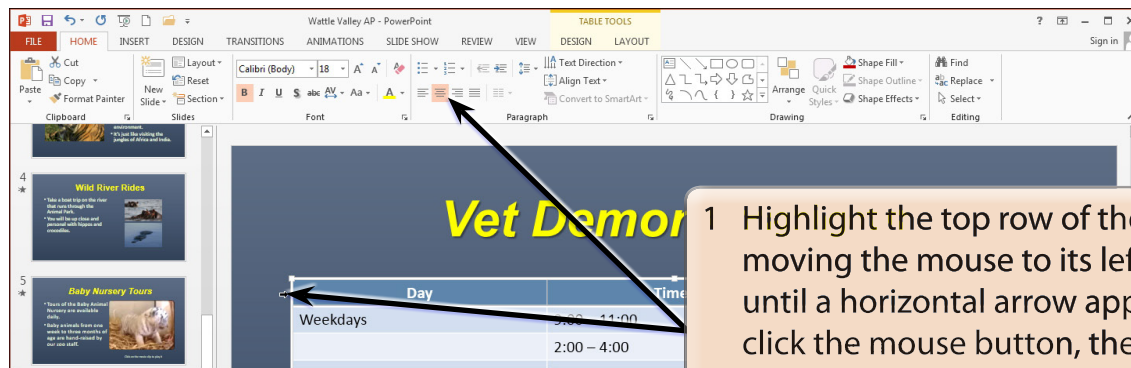

When you insert a table into a slide it is formatted to a shaded title bar and alternate shadings of rows. You can alter this style using the preset styles that PowerPoint provides or by changing each section manually.

Move the pointer over some of the TABLE STYLES in the DESIGN tab of the RIBBON and select a style that you like. More styles can be displayed by clicking on the MORE icon.

Day	Times	Location
Weekdays	9:00 – 11:00	
	2:00 – 4:00	
Saturday	9:00 – 11:00	Reptile Ranch
	1:00 – 3:00	Animal Hospital
Sunday	1:00 – 3:00	Nursery

## Formatting the Text

Text in a table is formatted using the HOME tab of the RIBBON and the LAYOUT tab of the TABLE TOOLS.

3 Click outside the table to remove the highlight.

# Inserting Charts into Slides

Another way to display information in slides is through the use of a chart (or graph). Let's create a chart that shows the number of visitors to the Wattle Valley Animal Park over a three year period.

## Loading the Presentation

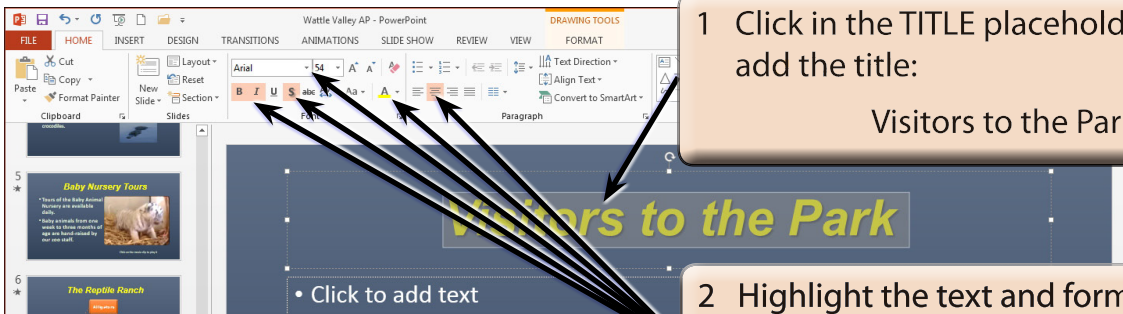

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

## Selecting the Slide Layout

The screenshot shows the Microsoft PowerPoint interface with the 'HOME' tab selected in the ribbon. The 'LAYOUT' group in the ribbon is open, displaying various slide layout options. A callout box labeled '1' points to the 'VET DEMONSTRATIONS' slide layout, which is highlighted. Another callout box labeled '2' points to the 'ADD SLIDE' icon (a small square with a plus sign) in the 'LAYOUT' group. The main slide area shows a slide titled 'Vet Demonstrations' with a table of times.

Day	Times
Weekdays	9:00 – 11:00 2:00 – 4:00
Saturday	9:00 – 11:00 1:00 – 3:00
Sunday	1:00 – 3:00

## Entering the Slide Title

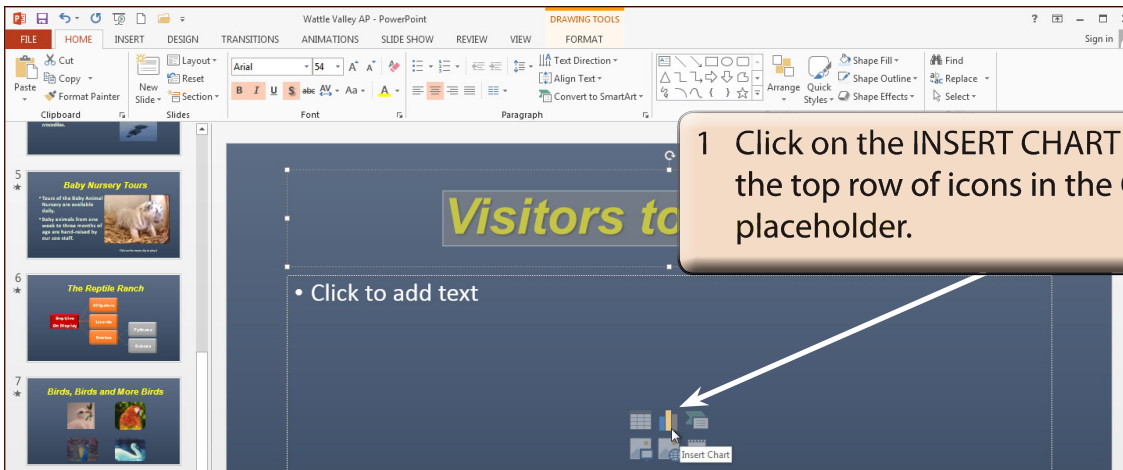

1 Click in the TITLE placeholder and add the title:

Visitors to the Park

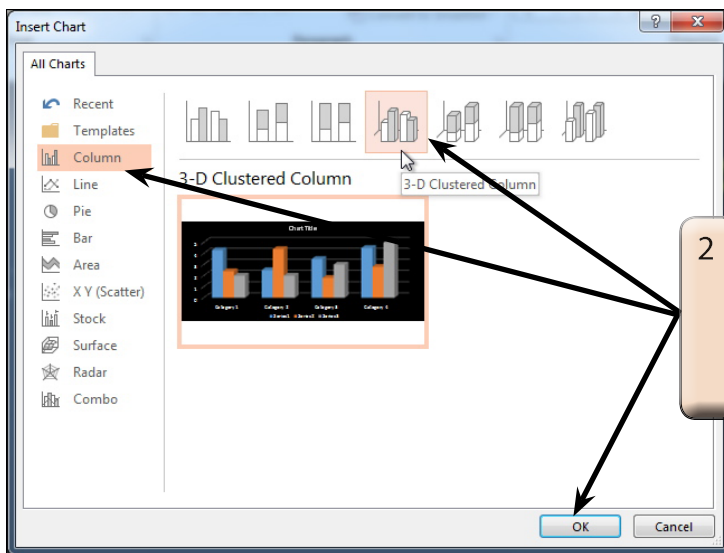

2 Highlight the text and format it to ARIAL, 54 point, BOLD, ITALIC, TEXT SHADOW, YELLOW and CENTRE.

## Inserting the Chart

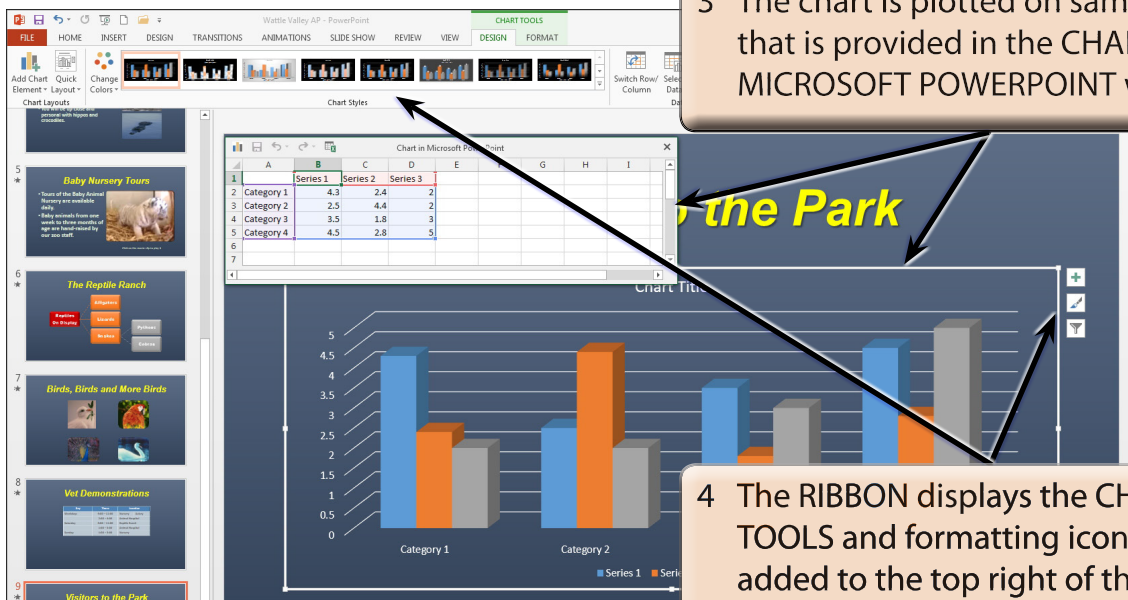

1 Click on the INSERT CHART icon in the top row of icons in the CONTENT placeholder.

**NOTE:** You can also insert a chart into a slide by clicking on the CHART icon in the INSERT tab of the RIBBON.

2 In the INSERT CHART dialogue box leave the COLUMN category selected, select the 3-D CLUSTERED COLUMN CHART and select OK.

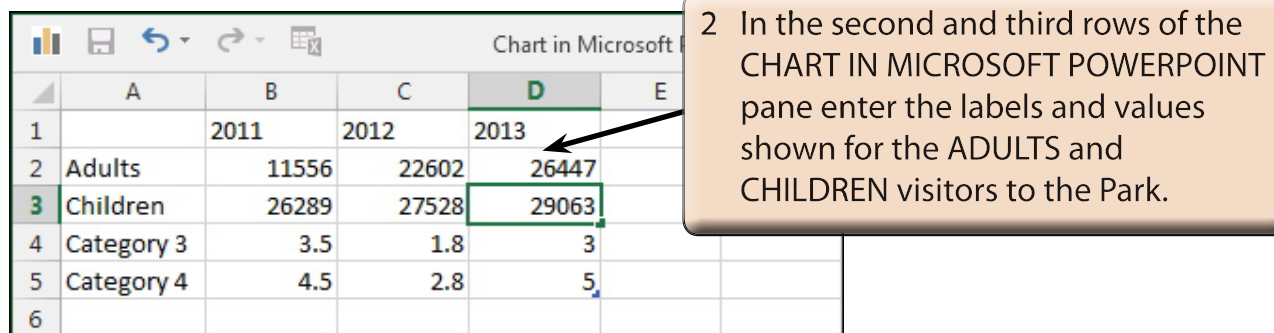

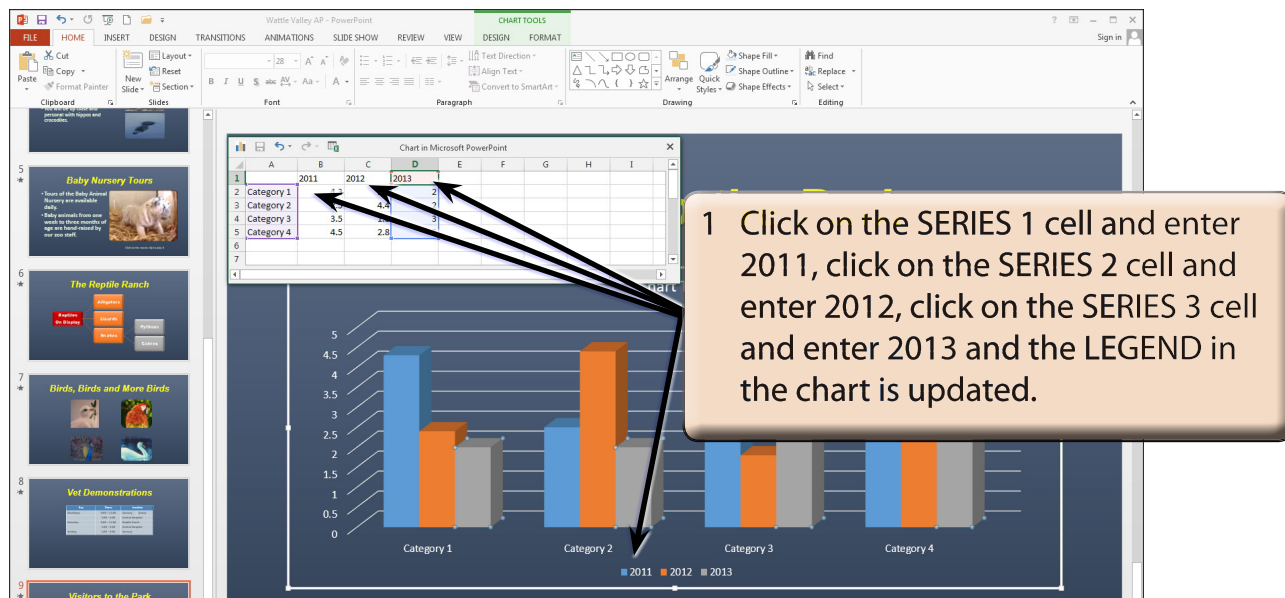

3 The chart is plotted on sample data that is provided in the CHART IN MICROSOFT POWERPOINT window.

4 The RIBBON displays the CHART TOOLS and formatting icons are added to the top right of the chart.

**NOTE:** All charts created in Microsoft Office 2013 programs use the charting functions from within Microsoft Excel to produce the chart.

## Entering the Chart Data

The chart data is entered in the Excel pane.

- NOTE:**
- i The chart is updated in the PowerPoint pane as you enter the data.
  - ii The top row in the CHART IN MICROSOFT POWERPOINT pane is the LEGEND values, the left column is the X-AXIS values and values in the centre of the spreadsheet are the Y-AXIS values.

# Action Buttons

You can set graphics in PowerPoint to carry out a variety of commands. When graphics are used in this fashion they are said to be ACTION BUTTONS. PowerPoint provides some preset ACTION BUTTONS or you can set a Shape, a Clip Art graphic or text to be an ACTION BUTTON.

## Loading the Presentation

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

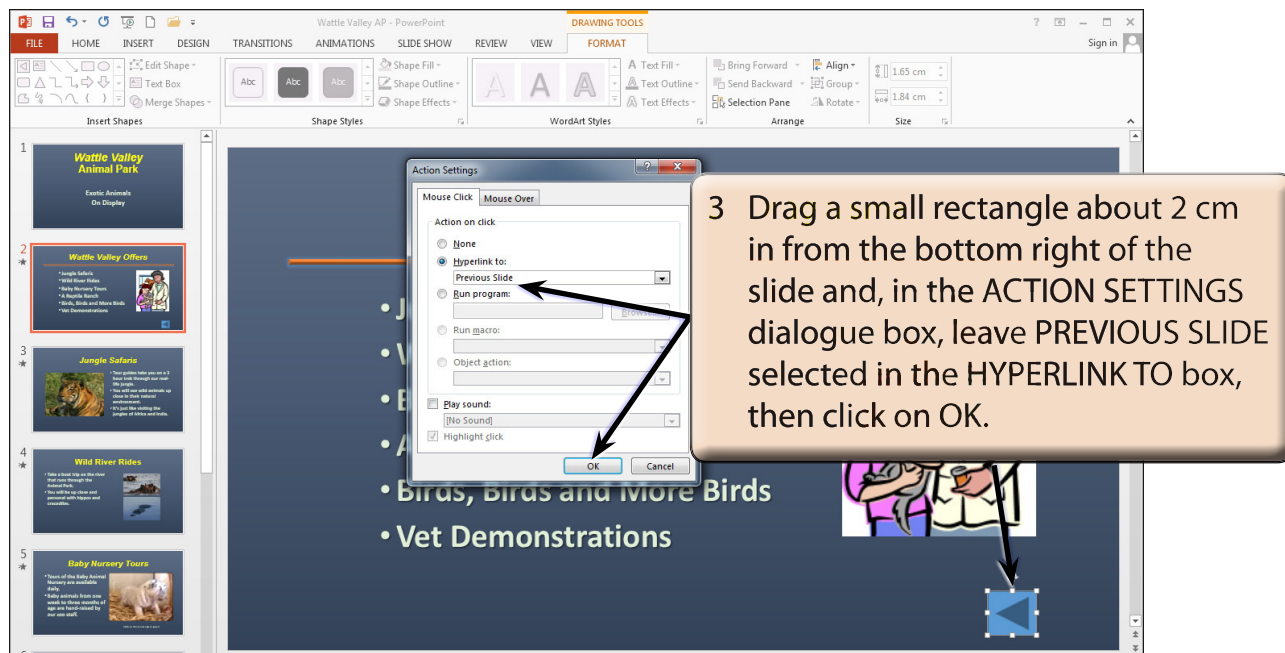

## Navigation Buttons

Buttons can be added to slides to allow users of the presentation to move from slide to slide.

### A The Previous Slide Button

1 Set the screen to SLIDE 2.

2 Open the INSERT tab of the RIBBON, click on the SHAPES icon and select the ACTION BUTTON: BACK OR PREVIOUS button from the ACTION BUTTONS section.

3 Drag a small rectangle about 2 cm in from the bottom right of the slide and, in the ACTION SETTINGS dialogue box, leave PREVIOUS SLIDE selected in the HYPERLINK TO box, then click on OK.

**NOTE:** You can set a button to activate when the mouse button is clicked on it, or by simply moving the mouse pointer over it.

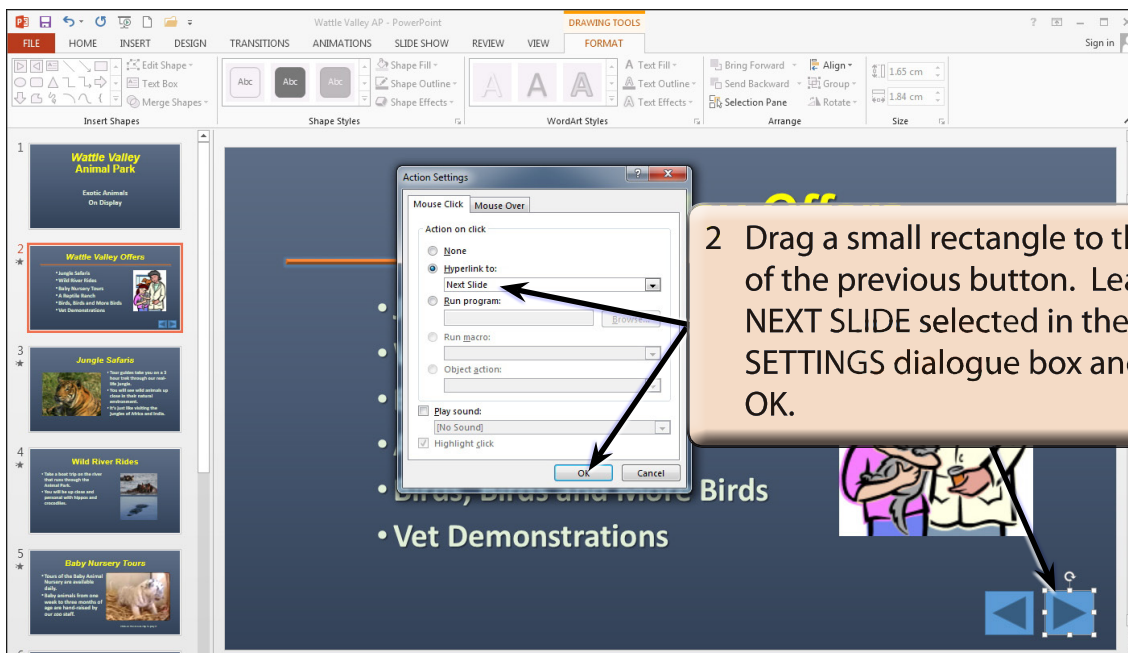

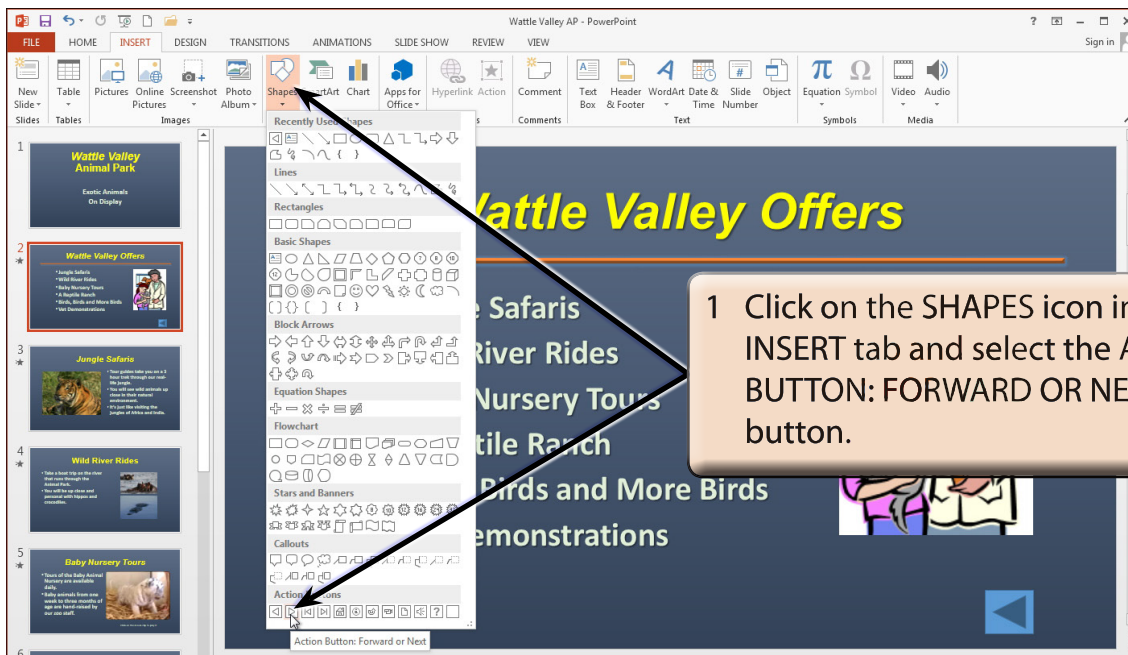

4 Preview the slide by pressing SHIFT+F5.

5 Click on the button and slide 1 should be opened.

6 Press the ESC key to exit the slide show and return SLIDE 2 to the screen.

## B The Next Slide Button

3 Preview the slide by holding down the SHIFT key and pressing F5.

4 Click on the NEXT OR FORWARD button and slide 3 should be opened.

- 5 Press the ESC key to return to the slides and return SLIDE 2 to the screen.

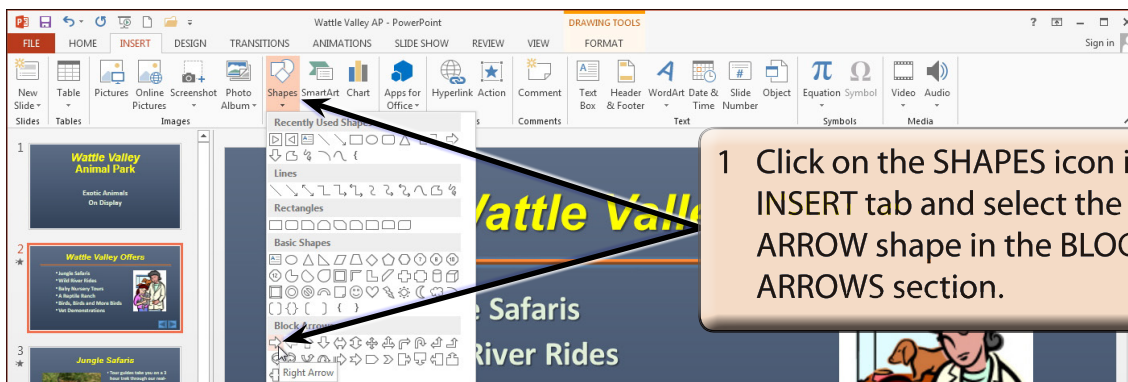

**NOTE:** These buttons could be copied to each slide, but you will see how to do that more efficiently in the SLIDE MASTERS chapter.

## Buttons That Open Specific Slides

You can set buttons that allow the user to open specified slides. In this presentation SLIDE 2 is basically a menu for the rest of the presentation so we can add buttons to it to open any of the other slides.

The SHAPES icon will be used to create the screen custom buttons.

### A The Jungle Safaris Button

# Text Formatting

PowerPoint offers an extensive array of text formatting tools that are very similar to those found in Microsoft Word. In this chapter you will look at ways to improve the appearance of text in your presentations. It will include adding sub-points, changing bullets, line spacing and spell checking tools.

## Loading the Presentation

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

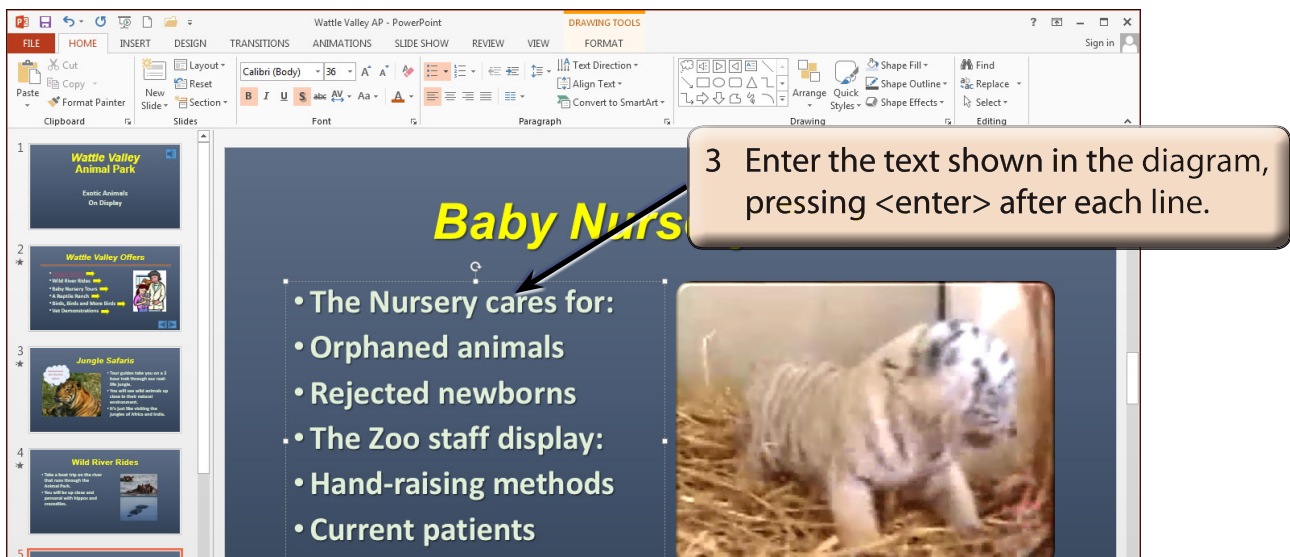

## Creating Sub-Points

So far you have entered single bullets. When you have a paragraph of text as a point it is usually better for the viewer of your presentation to have that paragraph split into sub-points with bullets highlighting those sub-points. To illustrate this let's change the text in the BABY NURSERY TOURS slide to have sub-points.

### A Entering the Text

1 Set the screen to the BABY NURSERY TOURS slide (SLIDE 5).

2 Highlight all the text in the left placeholder.

Wattle Valley AP - PowerPoint

**DRAWING TOOLS**

FILE HOME INSERT DESIGN TRANSITIONS ANIMATIONS SLIDE SHOW REVIEW VIEW FORMAT

Clipboard Font Paragraph Drawing Styles Editing

1 Wattle Valley Animal Park  
Exotic Animals On Display

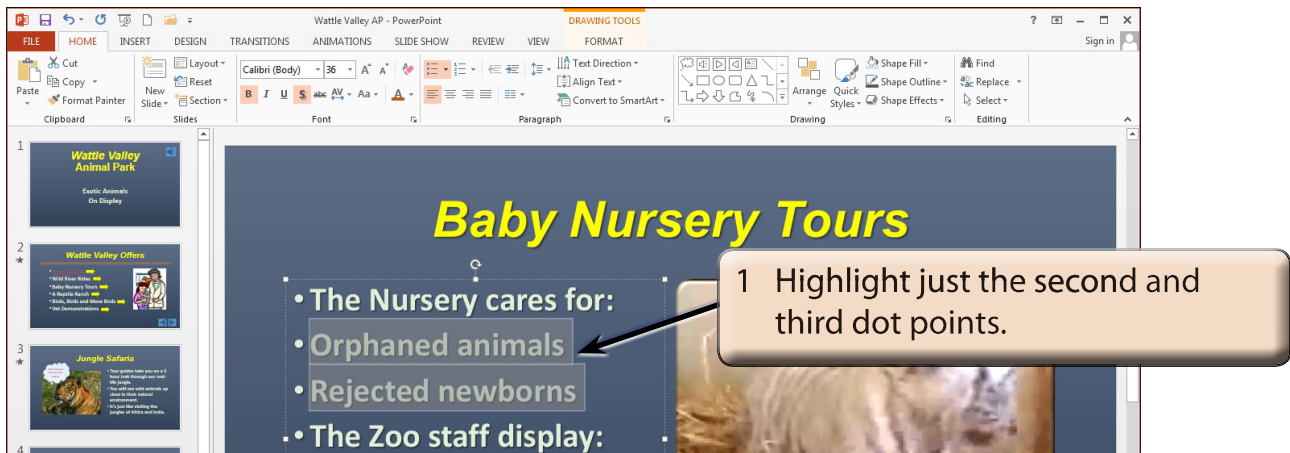

2 Wattle Valley Offers  
• Wild River Rafting  
• Baby Nursery Tours  
• Jungle Safaris  
• Bush, Bush and More Bush

3 **Baby Nursery Tours**

- The Nursery cares for:
- Orphaned animals
- Rejected newborns
- The Zoo staff display:
- Hand-raising methods
- Current patients

3 Enter the text shown in the diagram, pressing <enter> after each line.

## B Setting the Sub-Points

Wattle Valley AP - PowerPoint

FILE HOME INSERT DESIGN TRANSITIONS ANIMATIONS SLIDE SHOW REVIEW VIEW FORMAT

Clipboard Font Paragraph Drawing Styles Editing

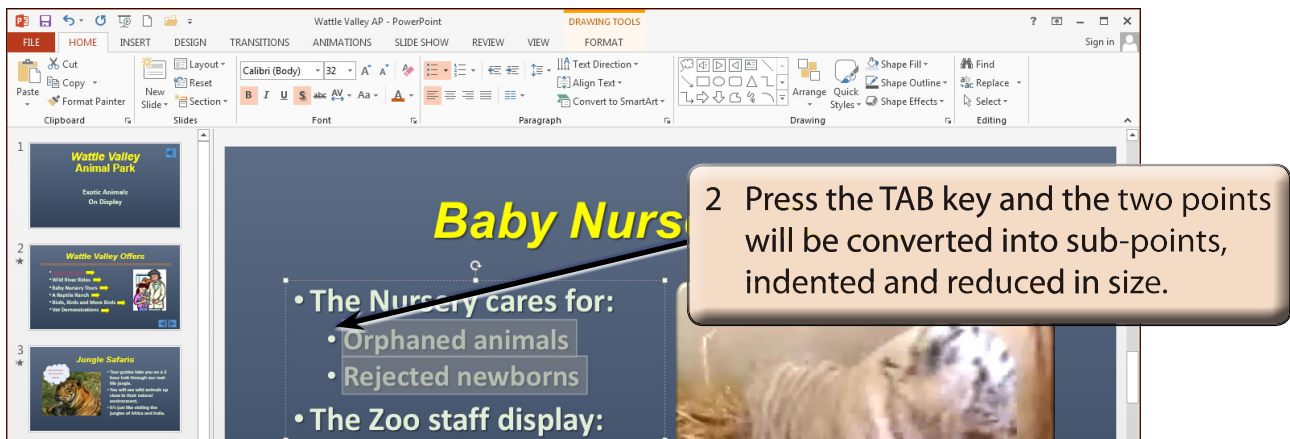

1 Wattle Valley Animal Park  
Exotic Animals On Display

2 Wattle Valley Offers  
• Wild River Rafting  
• Baby Nursery Tours  
• Jungle Safaris  
• Bush, Bush and More Bush

3 **Baby Nursery Tours**

- The Nursery cares for:
- Orphaned animals
- Rejected newborns
- The Zoo staff display:

2 Press the TAB key and the two points will be converted into sub-points, indented and reduced in size.

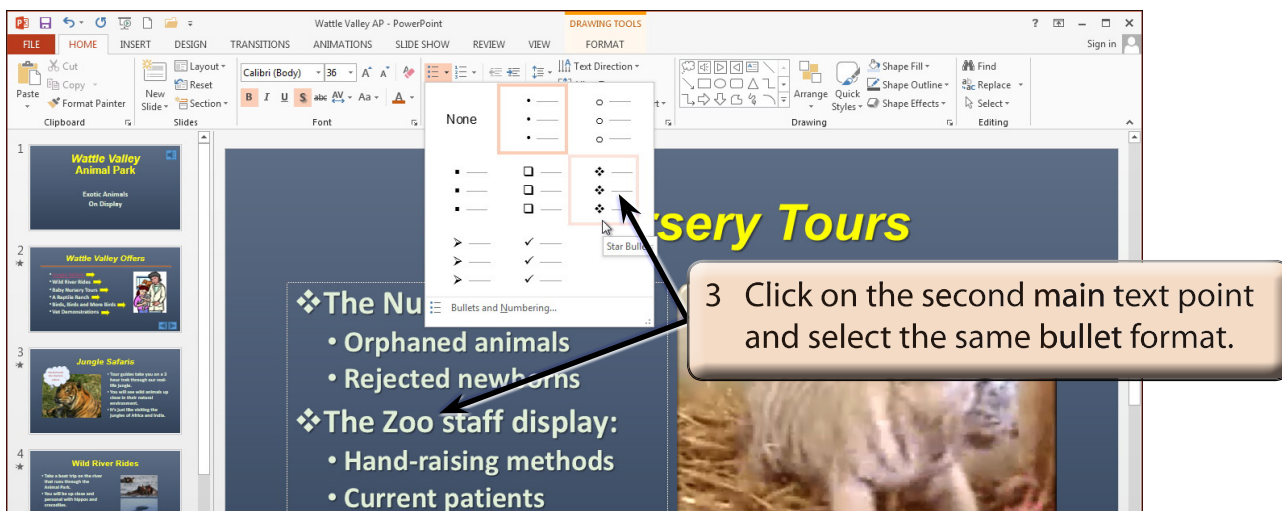

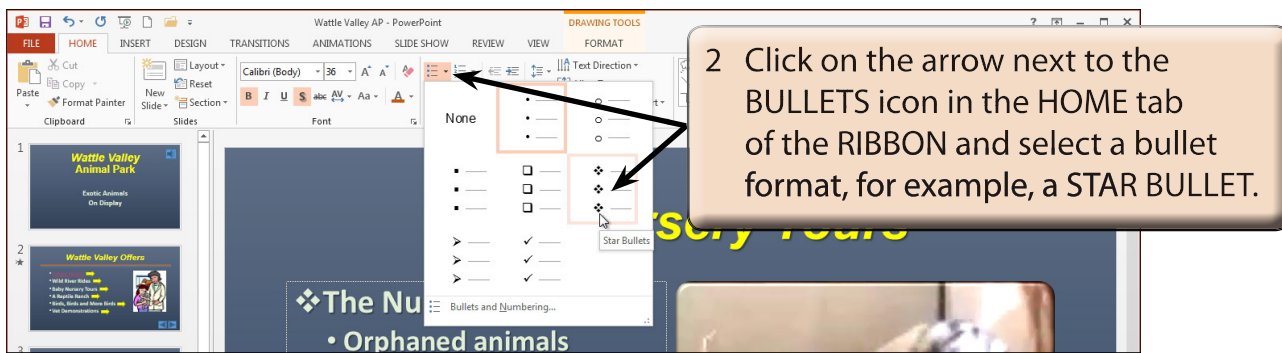

- NOTE:**
- i Pressing the TAB key again would set the points to a third level sub-point.
  - ii Sub-points can be returned to normal points by highlighting them and pressing SHIFT+TAB.

## Bullet Formats

By default, bullets are set to solid dots. You can change this.

**NOTE:** Once you have set a bullet format you can press **CTRL+Y** as a shortcut to repeat the previous step.

# Self-Running Shows

PowerPoint allows you to create self-running shows that play over and over without the need to click the mouse button. Animations, sounds and narrations (voice comments) can be added to enhance the show.

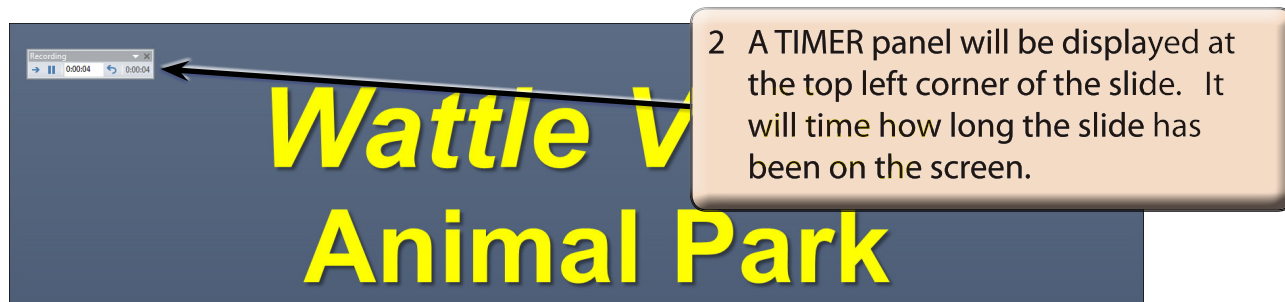

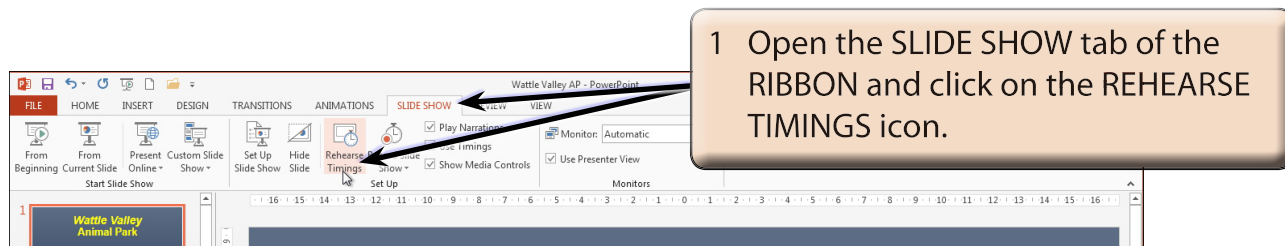

## Loading the Presentation

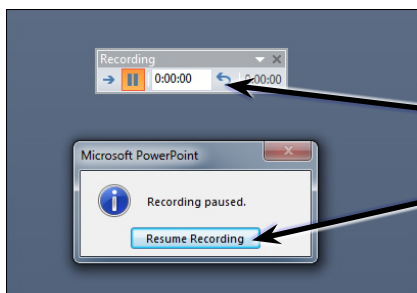

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

## Setting the PowerPoint Show

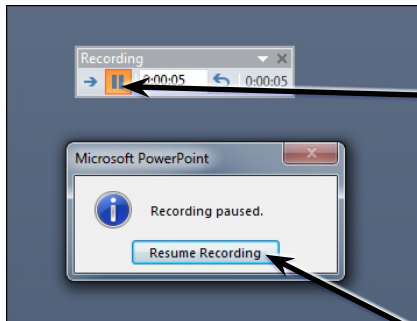

When setting up a PowerPoint show you need to teach PowerPoint how long you want each slide to stay on the screen. In this case you will leave a slide on the screen for about 5 to 6 seconds. In an actual show you might want to leave each slide on the screen for longer periods.

### A Rehearsing the Timings

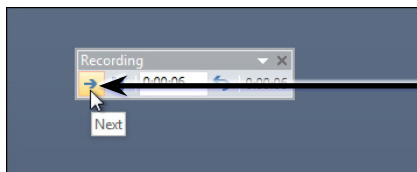

3 Click on the REPEAT button to reset the timer, click on RESUME RECORDING and leave the first slide on the screen for about 5 or 6 seconds.

4 Click on the PAUSE button to stop the time. This lets you prepare for the next slide.

5 Click on the RESUME RECORDING button and click on the NEXT slide button.

6 After about 5 seconds click on the PAUSE button and the total time elapsed is displayed in the right timer box.

- 7 Resume the recording, click on the NEXT button for each slide when it reaches about 5 seconds. You need to click the mouse button for slides that have animations set on their content.

**NOTE:**

- i You might like to escape from the slide show, select **NO** to keep the timings and start the timings again.
- ii You don't need to pause at the end of a timing. You can click directly on the **NEXT** slide button to finish the timing of a slide. The **PAUSE** button is used to temporarily halt the rehearsal.

# Delivering Presentations

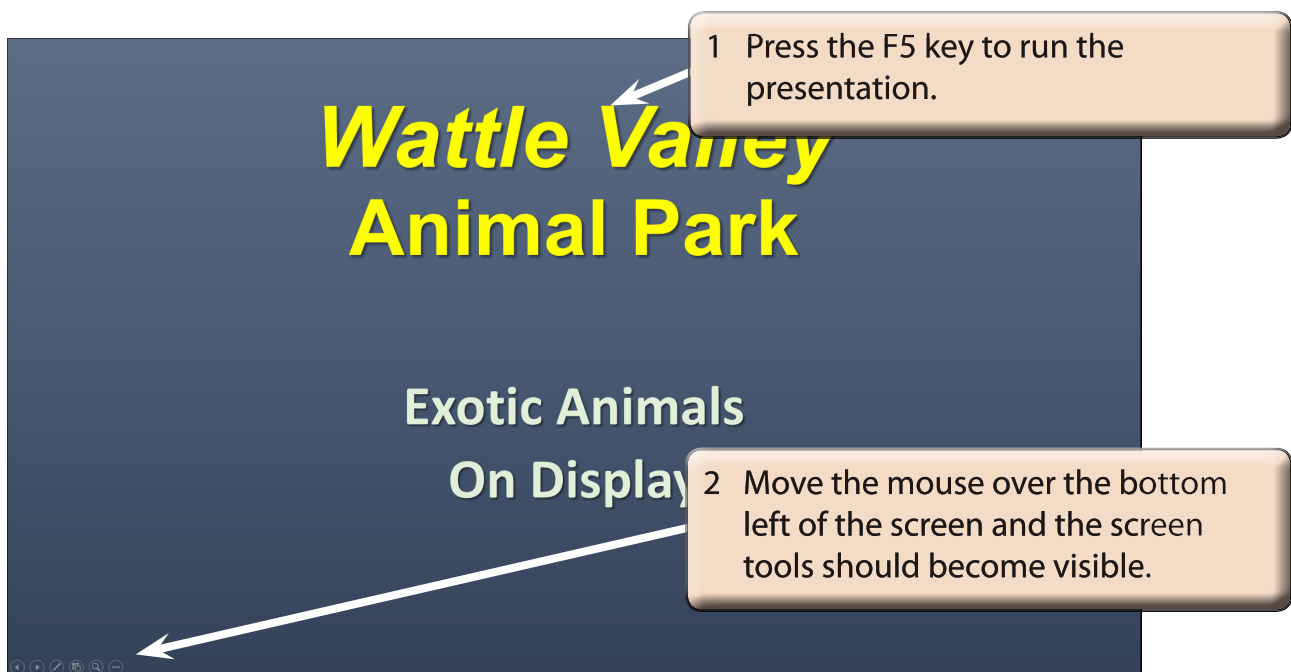

So far you have simply run presentations. PowerPoint provides a number of tools to help improve the delivery of your presentation. These include screen tools, speakers notes and handout notes.

## Loading the Presentation

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP file.

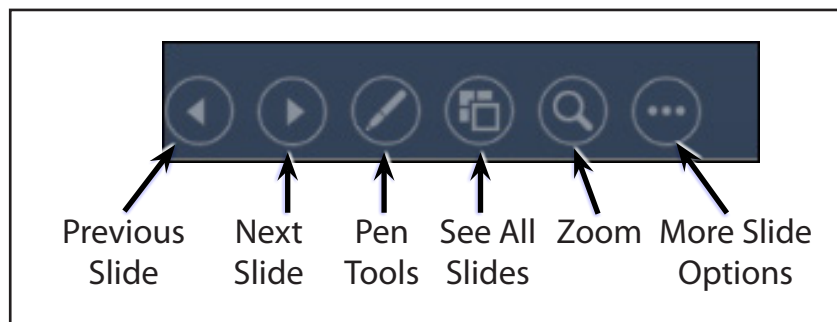

## Screen Tools

The screen tools allow you to draw over your presentation as it is being delivered. You can also skip to any slide in the presentation.

## A Identifying the Screen Tools

The tools have the following meaning:

## B Using the Pen Tools

When delivering a presentation you can use the PEN TOOLS to highlight key points or even write words on the screen. The PEN TOOLS do not alter your slides.

The screenshot shows a PowerPoint slide titled "Jungle Safaris" in yellow text. The slide content includes a photo of a tiger, a thought bubble saying "The Belmont Zoo also has safaris", and a bulleted list: "• Tour the zoo for an hour and see the life of a tiger", "• You will see wild animals up close in their natural environment", and "• It's in the jungle". A pen tool palette is visible in the bottom left corner. Two callout boxes provide instructions: "1 Use the NEXT SLIDE button to set the slide show to SLIDE 3 (Jungle Safaris)." and "2 Click on the PEN TOOL and select HIGHLIGHTER." Arrows point from these boxes to the "Next Slide" button and the "Highlighter" tool in the pen palette, respectively.

**1** Use the NEXT SLIDE button to set the slide show to SLIDE 3 (Jungle Safaris).

**2** Click on the PEN TOOL and select HIGHLIGHTER.

**NOTE:** You can also click the right mouse button on the screen to display the screen tools.

## Jungle Safaris

The Belmont Zoo also has safaris

- Tour guides take you on a 3 hour trek through our real-life jungle.
- You will see wild animals up close in their natural environment.
- It's just like visiting the jungles of Africa and India.

3 Click on the PEN TOOL again and select a bright highlight colour, for example, orange.

## Jungle Safaris

The Belmont Zoo also has safaris

- Tour guides take you on a 3 hour trek through our real-life **jungle**.
- You will see wild animals up

4 Drag the highlighter pen over some text, for example, JUNGLE, to make the text stand out.

## Jungle Safaris

The Belmont Zoo also has safaris

- Tour guides take you on a 3 hour trek through our real-life **jungle**.
- You will see wild animals up close in their natural environment.
- It's just like visiting the jungles of Africa and India.

5 Select the PEN TOOL again and select PEN. Set the INK COLOUR to YELLOW and draw a line under WILD ANIMALS.

## C The Eraser Tool

Pen marks on slides can easily be removed.

2 Click on the ORANGE highlight to remove it.

- NOTE:**
- i The ERASE ALL INK ON SLIDE tool can be used to remove all pen markings in one go.
  - ii You can select the LASER POINTER from the PEN TOOLS if you want the mouse pointer to be turned into a laser pointer in presentations so that viewer can see the pointer more clearly. You can also hold down the CTRL key and click the left mouse button during a presentation to convert the mouse pointer into the laser pointer.

## Slide Masters

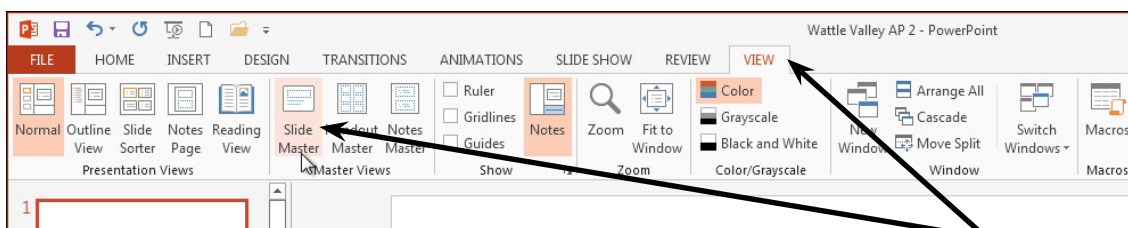

When you need to change the style of all the slides in a presentation you do not want to have to go to each slide and make those changes. PowerPoint lets you change the formats of all slides using the SLIDE MASTER VIEW. This also helps you ensure consistency throughout your presentation. For example, if you wish to include a company logo on each slide, the graphic can be inserted in the SLIDE MASTER VIEW and it will then be displayed on all the slides.

To see some of the many advantages of using the SLIDE MASTER VIEW you will adjust the title text, add an image and some footer items to a presentation on the Wattle Park Animal Park. When you format the content of slides they over write settings set to the SLIDE MASTERS so a copy of the Wattle Park presentation has been prepared for you without any text formats.

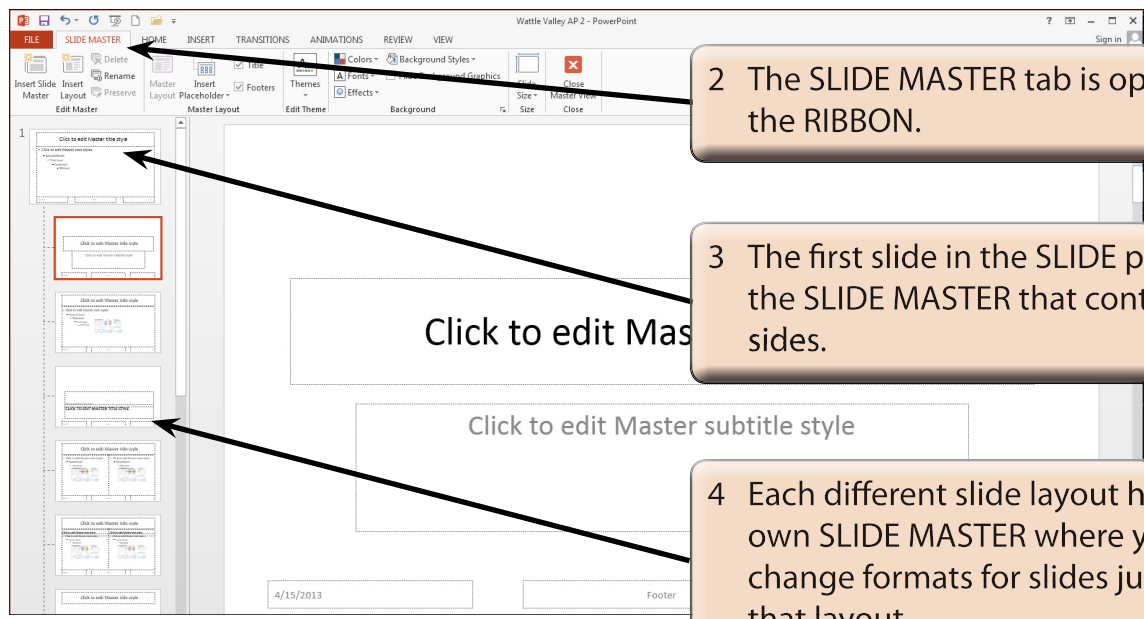

## Loading the Presentation

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to the PP2013 SUPPORT FILES, open the CHAPTER 14 folder and open the WATTLE VALLEY AP 2 file.
- 4 Click on the FILE tab, select SAVE AS, navigate to your STORAGE folder and save the presentation under the same name.

## Opening the Slide Master View

- 1 Open the VIEW tab of the RIBBON and click on the SLIDE MASTER icon.

2 The SLIDE MASTER tab is opened in the RIBBON.

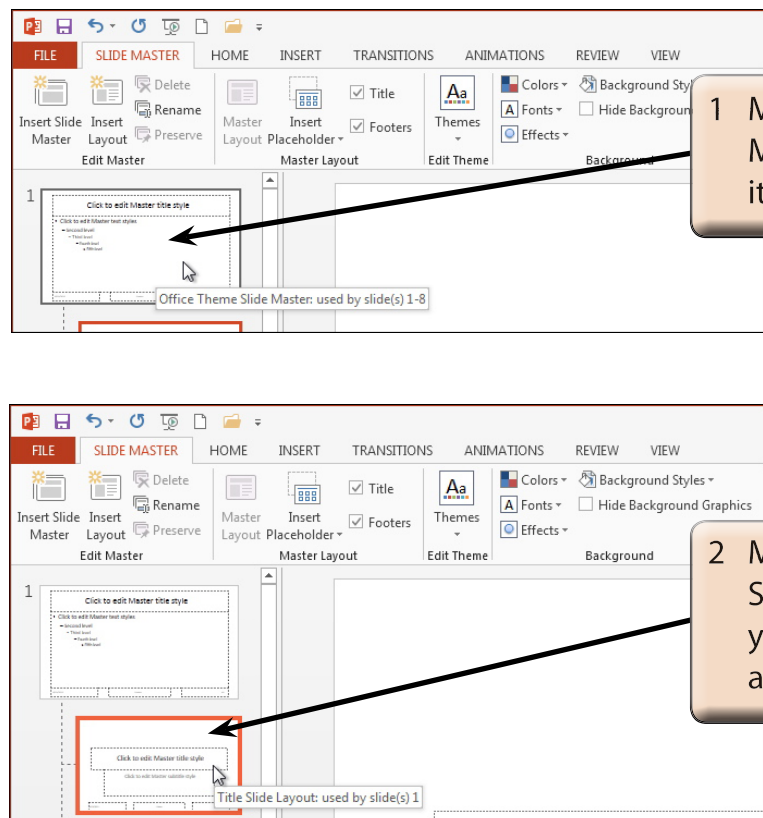

3 The first slide in the SLIDE pane is the SLIDE MASTER that controls all sides.

Click to edit Master title style

Click to edit Master subtitle style

4 Each different slide layout has its own SLIDE MASTER where you can change formats for slides just set to that layout.

## Looking at the Slide Masters

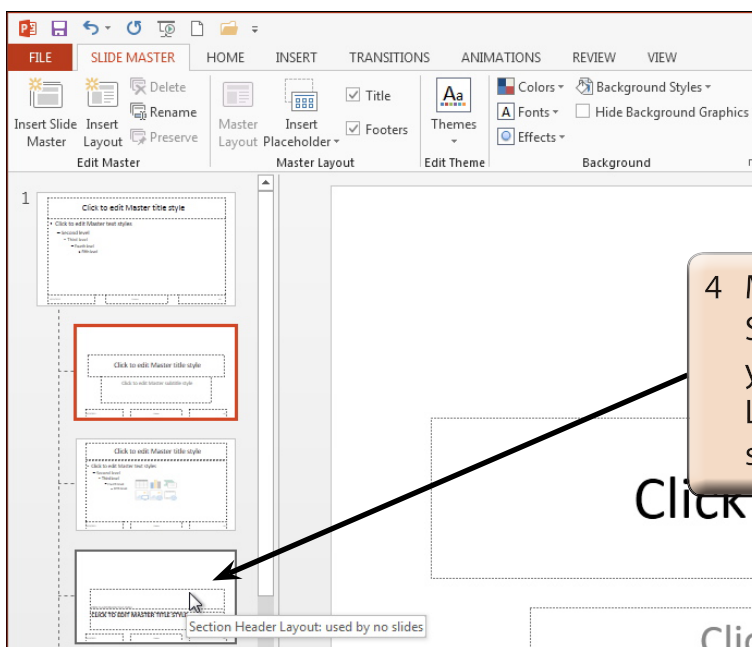

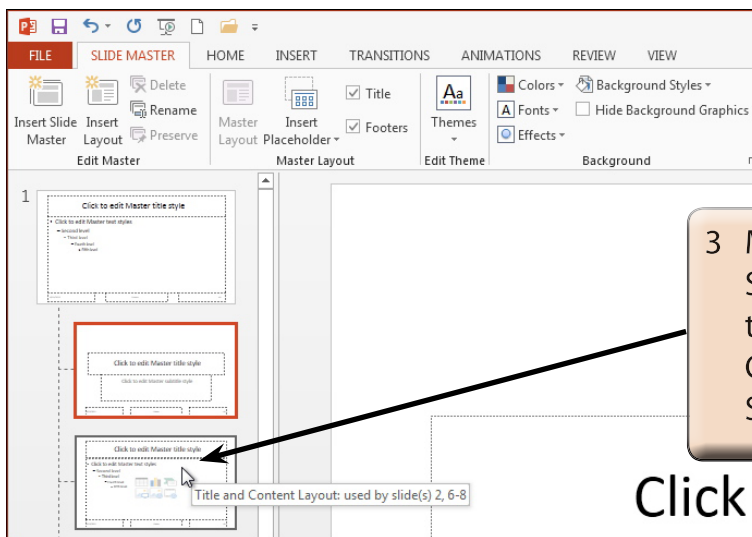

1 Move the pointer over the top SLIDE MASTER and the label tells you that it is used by SLIDES 1 to 8.

Office Theme Slide Master: used by slide(s) 1-8

2 Move the pointer over the second SLIDE MASTER and the label tells you that it is the TITLE SLIDE LAYOUT and it is used by SLIDE 1.

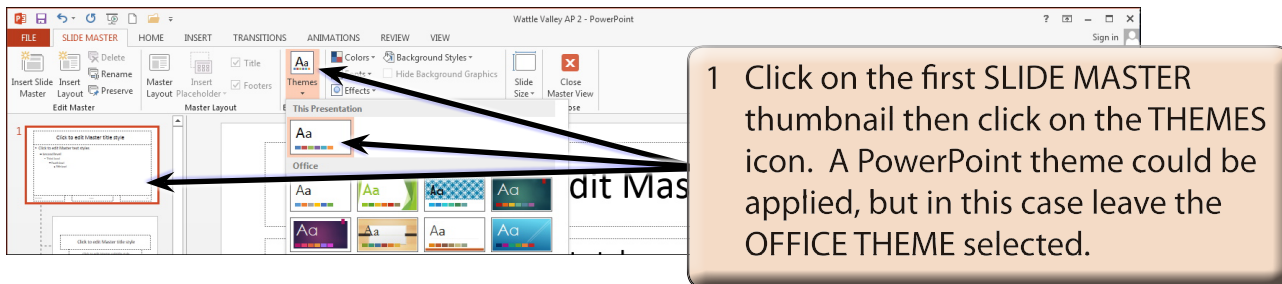

Title Slide Layout: used by slide(s) 1

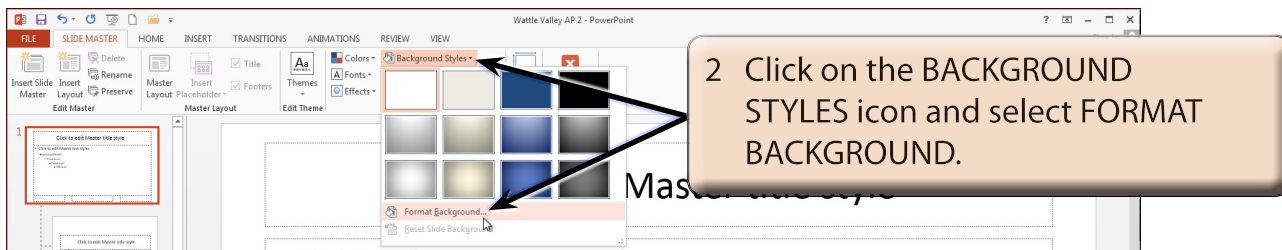

- 5 Move the pointer over the other SLIDE MASTERS and see which slides they control.

## Setting the Background of the Slides

A background and colour scheme can be applied to all the slides. This can be one of the themes that PowerPoint provides or a custom background that you create. In this case a custom background will be created.

**NOTE:** You can use the COLOURS, FONTS and EFFECTS icons in the BACKGROUND group of the SLIDE MASTER tab to apply colour, font and effect themes to the slides.

- 3 The FORMAT BACKGROUND TASK PANE is opened. It allows you to customise the background using fill colours, gradients, pictures, textures, patterns and effects. In this case a simple gradient will be applied.

# Audio and Video Files

Microsoft PowerPoint provides many media tools. These include adding a music sound track and exporting the presentation to a video file that can be placed on the internet.

## Loading the Presentation

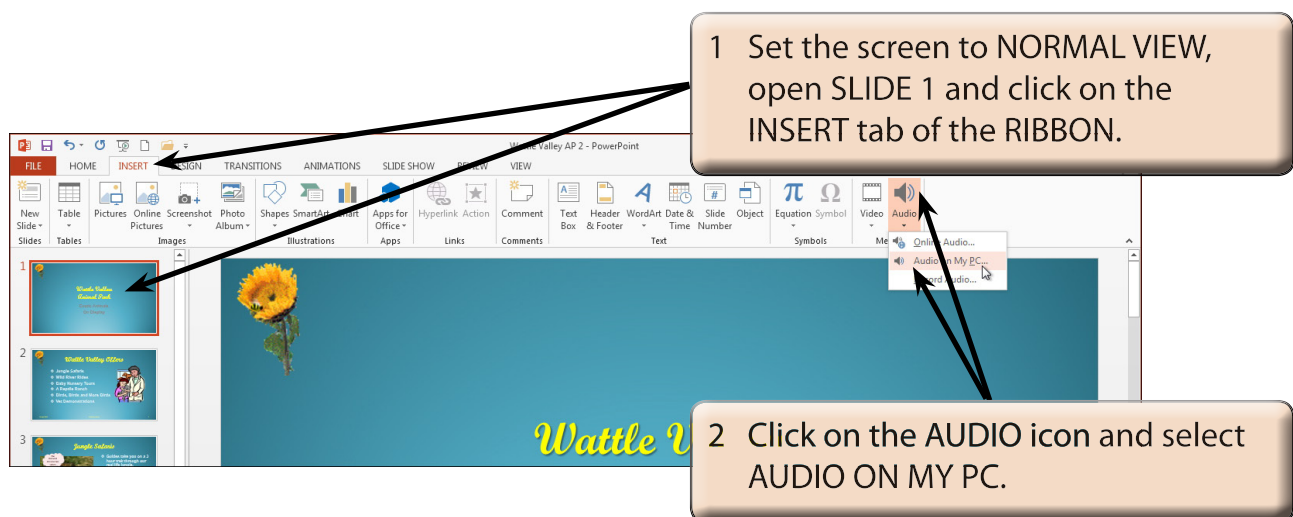

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP 2 file.

## Adding a Music Sound Track

You can add a music sound track to a presentation. This sound track can be set to play automatically on the first slide or throughout the whole presentation.

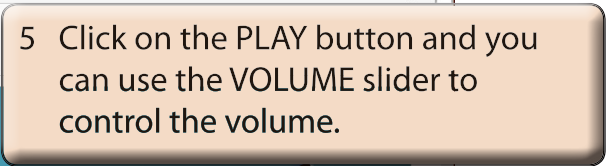

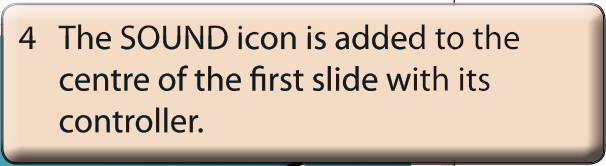

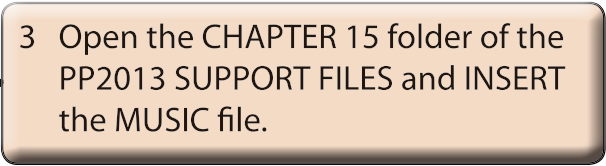

### A Inserting a Music File

A 40 second piece of music has been prepared for you and it needs to be inserted from the PP2013 SUPPORT FILES.

1 Set the screen to NORMAL VIEW, open SLIDE 1 and click on the INSERT tab of the RIBBON.

2 Click on the AUDIO icon and select AUDIO ON MY PC.

## Useful Features

To complete this unit we will look at a few of the useful features that PowerPoint provides. This will include merging shapes, the Eyedropper tool, screen size and the Comments pane.

### Loading the Presentation

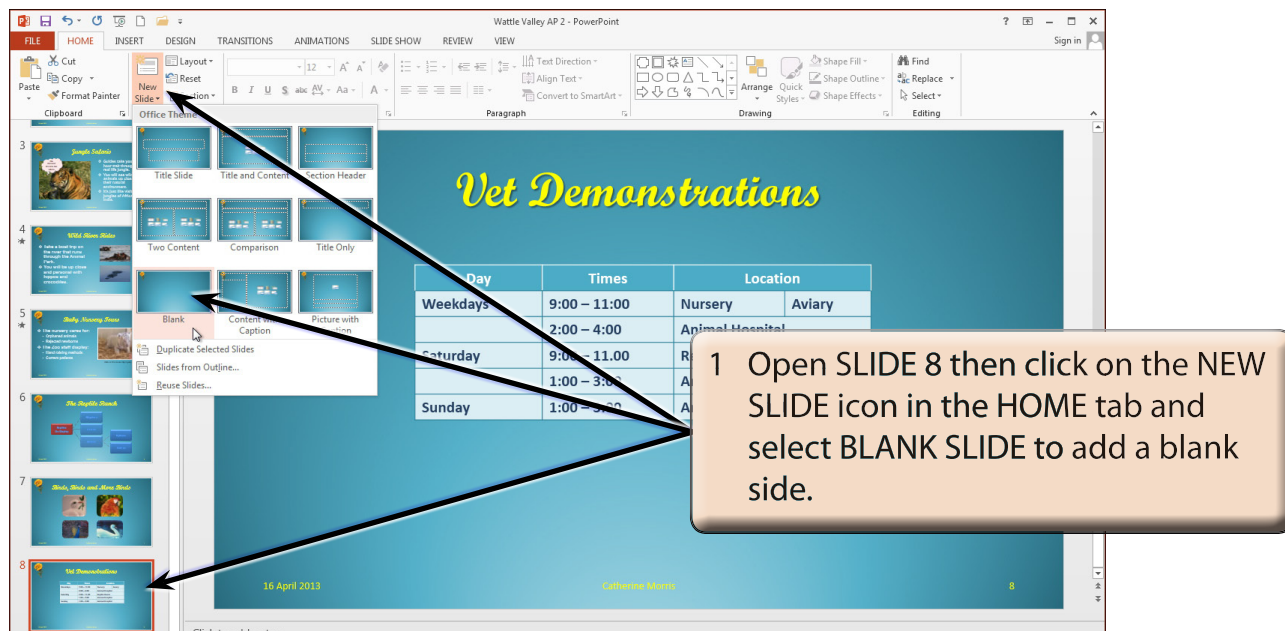

- 1 Load Microsoft PowerPoint or close the current presentation and click on the FILE tab.
- 2 Click on OPEN OTHER PRESENTATIONS in the START window or OPEN in the BACKSTAGE VIEW.
- 3 Navigate to your STORAGE folder and open the WATTLE VALLEY AP 2 file.

### Merging Shapes

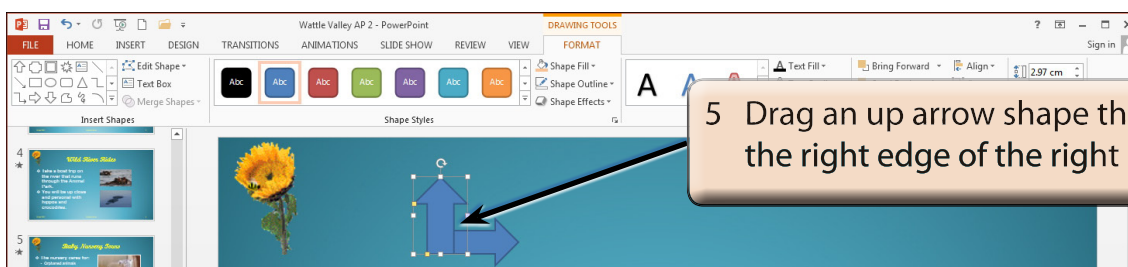

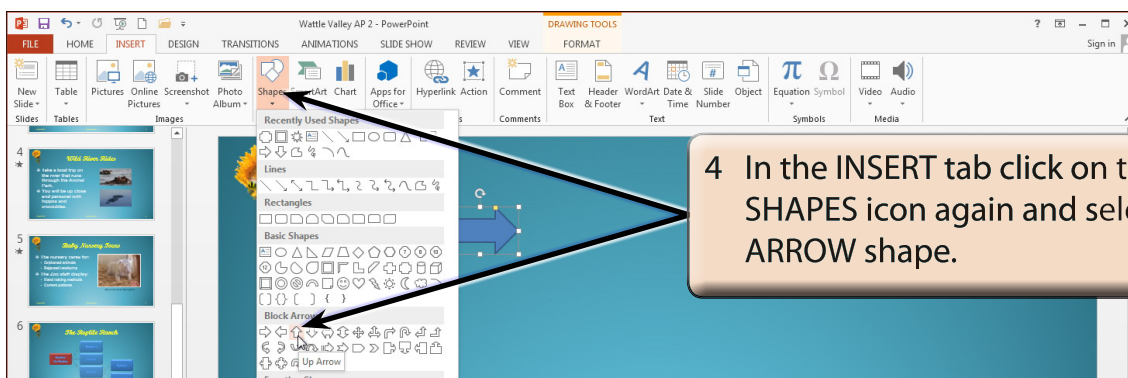

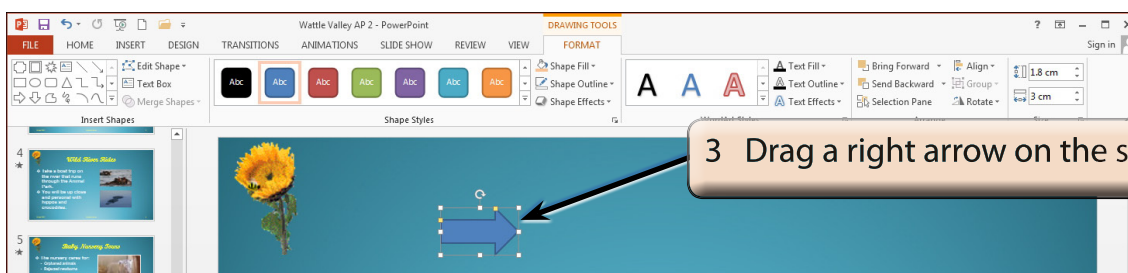

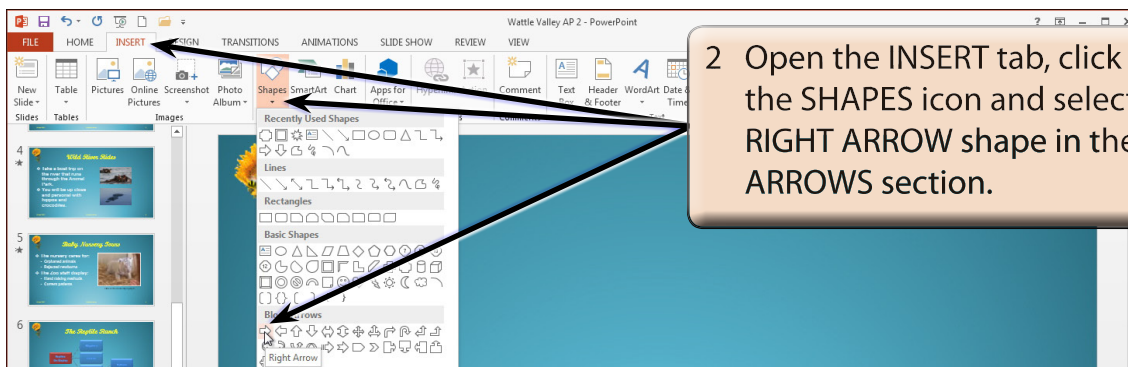

Shapes can be merged to create your own custom shapes. This also includes merging text boxes.

#### A Adding Shapes Together

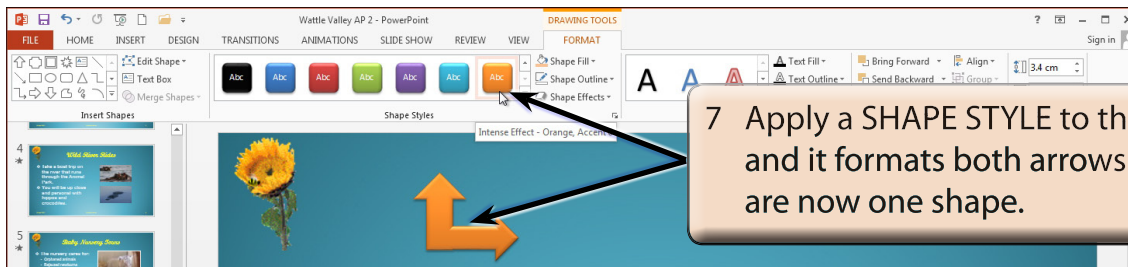

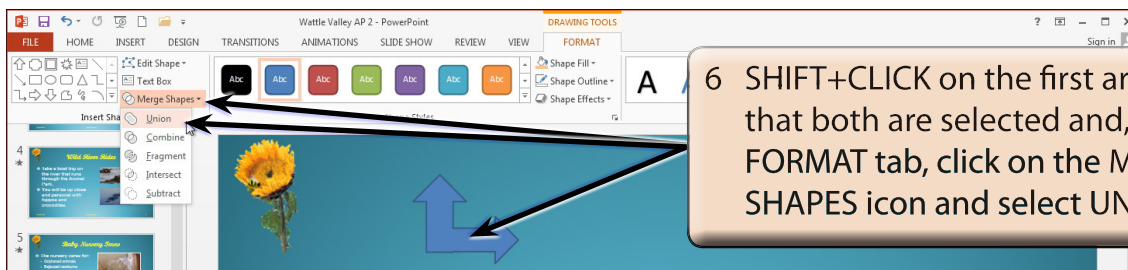

Shapes can be merged into one shape. The process is called UNION.

1 Open SLIDE 8 then click on the NEW SLIDE icon in the HOME tab and select BLANK SLIDE to add a blank side.

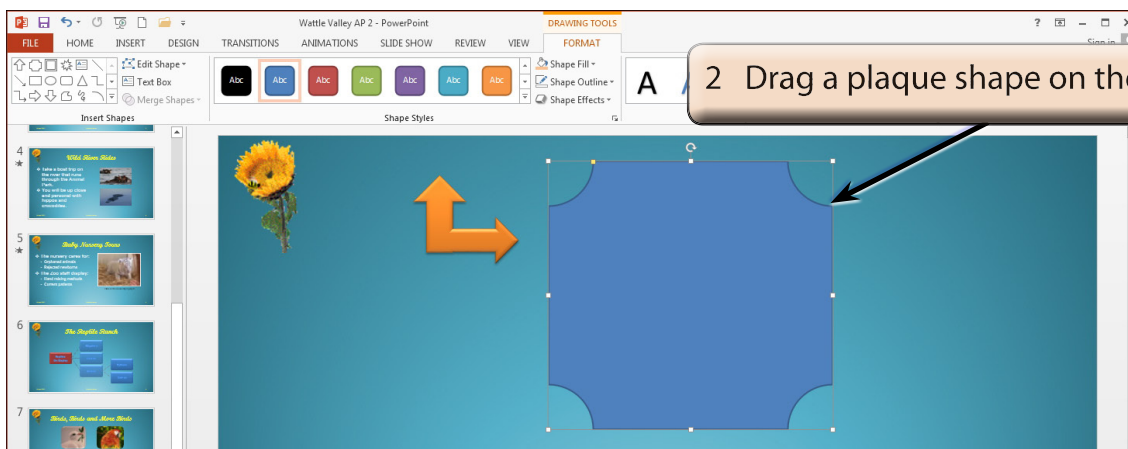

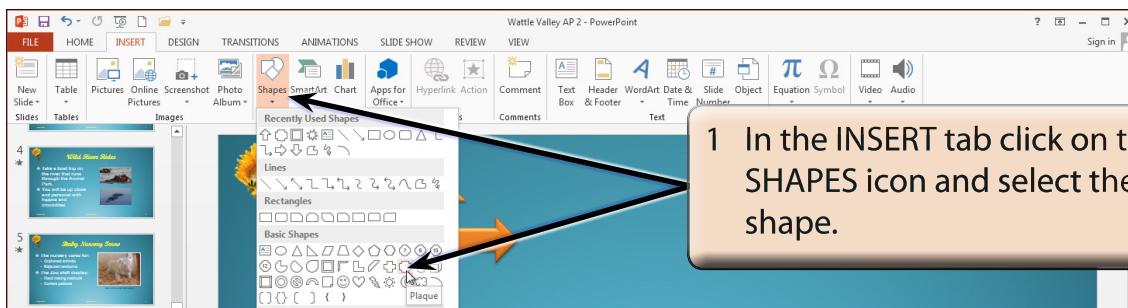

**NOTE:** You can hold down the ALT key and drag an object to over-ride the grid so that the edges of the objects are aligned.

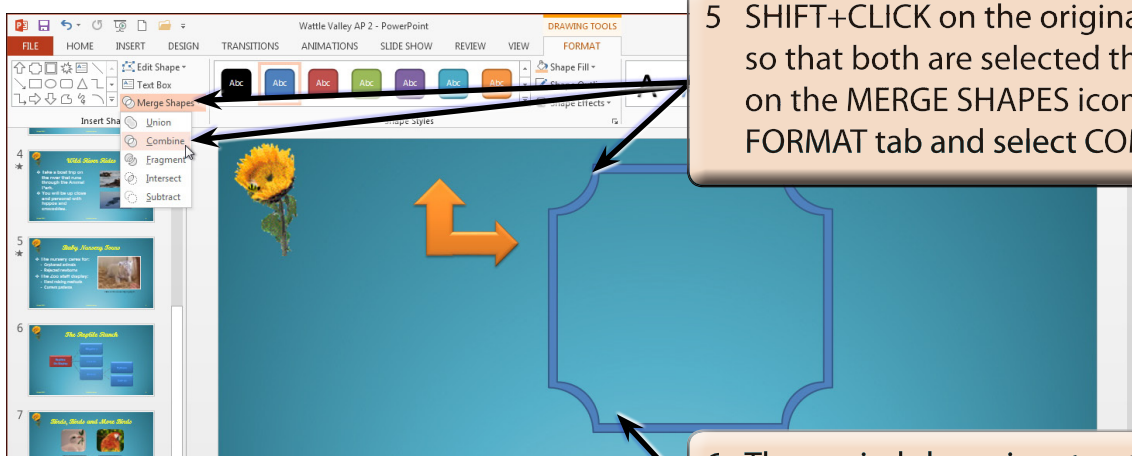

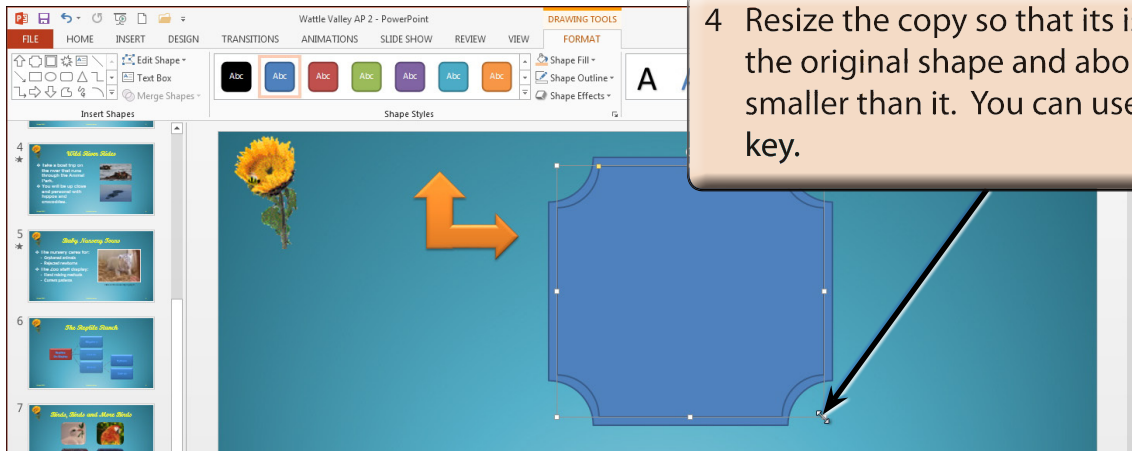

## B Combining Shapes

Shapes can be cut out from another shape. For example, you might want to create a custom frame.

- Copy the shape by pressing CTRL+C then press CTRL+V to paste a copy of the shape.

- The copied shape is cut out of the original to just leave a small frame.
